

You spoke and we listened! In response to those who took our recent survey, check out some of the latest changes to CFMS:

1. **Council File Supplemental Subscription** - We added the option to automatically subscribe to all supplemental(s) of a Council File in our Email Subscription service.

2. **New Search Engine** - The new search technology provides broader results and follows the industry-standard “Google Like” type of search (i.e. the word “truck” will now also search for synonyms: vehicle, car, and automobile).
  - **(Helpful Hint:** You can now choose “Search exact word or phrase” or use the Advanced Search if you want to be specific in your search [i.e. you **only** want to search for files with the word “truck.”] This will give you similar results to the previous search function. Under "Search" - there is an option to check the box "Search exact word or phrase" - if the box is checked, this will provide results with the exact word or phrase, which will default to sort by the last changed date instead of relevancy.)
3. **Search Filtering** – While the new search engine will give you more results, the filter will allow you to narrow your search results.
  - **(Helpful Hint:** If your search results in over 500 files, you can filter the results list to only show the files with the word “truck.”)
4. **Sort Results** – Results will automatically show in order of relevancy to your search but you may use the dropdown box over the search results to list your files in order of last changed date or by Council file number.
5. **Advanced Search Fields** – When using the Advanced Search, you will find that the most commonly used fields have been moved to the top of the list.
6. **Direct link to the Mobile version of CFMS** – Works well for Mobile device users or is a lighter version of the Council File Management System for PC users.

**Reminders:**

**Reporting Capabilities** – Use the reporting features to export your search results into a report and/or an Excel spreadsheet.

**Track Files** - Subscribe to files that you want to track. Subscribe using the RSS  or Email Notification  icon at the top of the Council file screens.

**Searchable Documents** – The only documents that CFMS searches is Motions and Resolutions. It does not search any other document.
