

The message of my campaign is that working people must take political power out of the hands of the capitalist class and it's party's --the Democrats and Republicans.

We must organize a labor party based on the trade unions that can fight for a workers and farmer's government that fights in the interest of the working class not the wealthy.

The working class is facing the worst economic crisis since the Great Depression.

State and city governments are carrying out drastic cuts that will only deepen the crisis for working people.

Their major concern is protecting profits.

There is and can be no equality of sacrifice under capitalism. The ruling class and its politicians will only demand more sacrifice from working people as they expand their war drive to grab more of the world's wealth.

As a socialist my campaign puts forward a set of demands to protect and unify working people against the spreading capitalist crisis.

At the same time we explain that real change can only be made through the working class carrying out a proletarian revolution that puts a workers and farmers government in power.

The unions must organize the unorganized – all the unorganized – immigrant and native born.

To combat rising prices and joblessness we demand regular cost-of-living increases in wages and benefits, as well as federal legislation to shorten the workweek, with no cuts in take-home pay to spread the available work.

Washington must increase the minimum wage and put millions to work at union-scale wages through a massive public works program.

We are for the immediate legalization of undocumented workers with no penalties or conditions.

The federal government must guarantee lifetime medical care and retirement pensions for all.

No cuts to Social Security or Medicare.

To unify the working class and its allies the labor movement must combat racism, fight for women's equality and abortion rights, defend affirmative

action, and fight to halt cop brutality, and against discrimination against homosexuals and other targets of bigotry.

We are for the immediate withdrawal of all U.S. troops from Iraq and Afghanistan and from all the other countries where they are stationed.

Immediately end all U.S. aid to Israel, which has been carrying out its brutal attacks on the Palestinian people in Gaza.

End the sanctions against Cuba.
