**Title**

PROHIBIT URINATING OR DEFECATING IN PUBLIC

**Subject**

Motion - Disturbingly, the City is experiencing more and more instances of people urinating in public; on streets, on others' private property and in our parks and other open spaces. At a time when we are celebrating our premier position as a world class city, host to thousands of tourists and numerous conventions we cannot permit this practice to proliferate. It is not only a public decency issue but a very serious public health problem. The Police Department has advised that it cannot enforce the law against urinating in public simply because the relevant Penal Code section no longer exists or any provisions in the Los Angeles Municipal Code which might be applicable are not realistically enforceable. Action is needed to request the City Attorney to provide a report on what is the status of various legal provisions, if any, which could be used to prohibit the practice of urinating in public, and to draft the necessary ordinance which would allow the Police Department to issue citations to people who urinate in public. THEREFORE MOVE that the City Attorney be requested to provide a report on what is the status of various legal provisions, if any, which could be used to prohibit the practice of urinating in public, and to draft the necessary ordinance which would allow the Police Department to issue citations to people who urinate in public.
