EXHIBIT XV

SUBCONTRACT AND PROCUREMENT PROCEDURES

§1 SUBCONTRACTS

- A. For the purpose of this Agreement, subcontracts shall include, but not be limited to purchase agreement or lease or rental agreements (excluding real property agreements), third-party agreements, consultant services subcontracts and construction subcontracts.
- B. Subcontracts entered into in the performance of this Agreement shall:
 - 1. Be subject to the terms and conditions set forth in this Agreement. City may require incorporation of the applicable provisions in a written agreement.
 - 2. Specifically prohibit assignment or transfer of interest without prior written approval by the City.
 - 3. Contractor must specifically provide proof, when applicable, of the appropriate permits and/or business licenses.
- C. A copy of each executed subcontract, or amendment(s) thereto, shall be submitted to the City for approval prior to execution.
- D. A copy of each executed subcontract, or amendment(s) thereto, shall be maintained by Contractor and provided to City upon written request.
- E. Subcontractor's shall be procured consistent with the Procurement Procedures outlined in this Agreement.

§2 PROCUREMENT PROCEDURES

It is the policy of the City of Los Angeles (City) to encourage fair and open competition in its procurement for goods and services. The requirements for a fair and open competition include the development of written procurement policies that include, but are not limited to all of the following subsections. Several of the provisions herein include City mandated rules and procedures in addition to the other grant requirements. Such policies are applicable to subcontractors to the extent permitted by law.

- A. Purpose: It is the intent of these rules that these procedures shall apply to all subcontracts including, but not limited to purchase agreements, lease or rental agreements (excluding real property agreements), third-party agreements, and consultant services subcontracts. All contractors are required to prepare written procurement procedures. All written procedures and policies for procurement activities are to be available for public inspection.
- B. Competition: The City and each of its contractors shall conduct procurement in a manner that provides full and open competition. Some of the situations considered to be restrictive of competition include, but are not limited to:
 - 1. Placing unreasonable requirements on firms or organizations in order for them to qualify to do business;
 - 2. Requiring unnecessary experience and excessive bonding;
 - 3. Noncompetitive pricing practices between firms or organizations, or between affiliated companies or organizations;

4. Noncompetitive awards to consultants that are on retainer contracts;
5. Organizational conflicts of interest;
6. Specifying only a "brand name" product instead of allowing "an equal" product to be offered and describing the performance of other relevant requirements of the procurement;
7. Overly restrictive specifications; and
8. Any arbitrary action in the procurement process.

C. Responsibilities:

1. The following procedures shall apply to all procurements under this Agreement in order to ensure that all solicitations:
 - a. Incorporate a clear and accurate description of the technical requirements for the material, product or service to be procured. Such description shall not, in competitive procurement, contain features which unduly restrict competition; and
 - b. Identify all requirements that the offerors must fulfill and all other factors to be used in evaluating bids or proposals.
2. Issue a Public Notification: The notification must be made through an announcement in a local public medium (e.g., newspaper) or other media that covers the entire service area.
3. All steps of each procurement must be documented, including a description of the documentation process and where the documentation will be located.
4. Contractor shall provide a copy of the bid package to anyone who requests it. Contractor shall compile a list of everyone requesting a copy of the bid package.
5. The Contractor shall ensure that all pre-qualified lists of persons, firms or other organizations that are used to acquire goods and services are current and include sufficient numbers of qualified sources to ensure maximum open and free competition. The agencies listed on the bidder's list may be individually notified.
6. The Contractor shall maintain records that are sufficient to detail the significant history of a procurement procedure. These records shall include, but are not limited to the following: rationale for the method of procurement; the selection of contract type; contractor selection or rejection; rational and reasonable rating criteria and the basis for the contract type.
7. The Contractor shall keep records sufficient to insure that funds have not been spent unlawfully.
8. The Contractor shall retain all records pertinent to any procurement agreement/contract within the County of Los Angeles for a period of five (5) years following termination of the Agreement and after final disposition of all pending matters. "Pending Matters" include, but are not limited to an audit, litigation, or other activities involving records. Prior to destruction of records retained under this Agreement, the Contractor shall notify the City and request instructions on disposition of said records.

9. The Contractor shall not contract with any party that is debarred, suspended or otherwise excluded from participation in Federal assistance programs. All contracts shall include a self-certification from the contractor that it is not a debarred party.

The Federal government prohibits awards to any party that is debarred. The Federal government compiles a list of debarred parties. The Federal list is published by the General Services Administration. A copy may be obtained by telephoning the Superintendent of Documents (202-512-1600). The list will be issued as an Information Bulletin in May of each year. It is the Contractor's responsibility to ensure that funds are not awarded to entities on the debarment list.

10. Procurement activities must be concluded in a confidential manner. Staff involved in procurements must not divulge advance purchasing information, specific proposal/offer evaluation criteria, and negotiations with bidders or in-house discussions regarding procurement until such time as this information is released to all parties.
11. Contractor shall receive and log in proposals and establish a method for recording the date and time of arrival of proposals using either a log-in sheet, or a date/time stamp. Contractor shall establish a single location for receipt of proposals. Contractor shall ensure that the only proposals received by the deadline specified in the bid package qualify for the evaluation process unless there is a valid legal reason for otherwise considering a late proposal.
12. Contractor shall establish proposal evaluation procedures that shall include, but not be limited to the following:
- a. Clear staff responsibilities: A procurement specialist shall be designated for each bid/proposal process. It shall be the responsibility of the specialist to insure compliance with these procurement rules;
 - b. Develop a standard worksheet or check-list for determining responsiveness of each proposal;
 - c. Establish and use evaluation criteria and a standard evaluation worksheet to be used in recording the evaluations of each proposal;
 - d. Prepare an analysis of costs to verify allowability and to determine reasonableness;
 - e. Identify staff responsibilities for completing proposal evaluation and for summarizing evaluation results;
 - f. Develop a description of methods for ensuring independence of ratings by those involved in the evaluation process (i.e., prohibit discussion among staff, sequestered evaluations);
 - g. Identify policy and process by which selection of awardee(s) will be made; and
 - h. Provide an opportunity for bidders to appeal staff recommendations.

Items a-c should be sufficiently completed before issuance of the bid package so relevant parts can be included.

13. Contractor shall identify complete and timely proposals. Contractor shall review the technical merits of these proposals based on the rating criteria contained in the bid package. Contractor shall review the cost proposals based on applicable cost principles and the technical proposal.

Contractor shall determine which proposals are in competitive range for technical response and based on the cost and price analysis conducted prior to the release of the bid package.

Contractor shall negotiate with organization(s) in the competitive range. Contractor shall establish policies and procedures governing face-to-face negotiations. Include in these policies opportunities to seek clarification of the proposal content, the offeror to submit a best and final proposal prior to final evaluation and award. Contractor shall include in the criteria that all responsive offerors in the competitive range are given fair and equal consideration based on the merits of their proposals. Contractor shall document these negotiations in writing.

14. Private for-profit entities must obtain prior written approval from the City for purchases of personal property (other than supplies) using Agreement funds.
15. Contractor shall conduct and document oversight to ensure compliance with these procurement procedures.
16. If the State of California, or the City of Los Angeles has established a debt against a service provider that has not been repaid or a repayment agreement plan has not be implemented, then the service provider shall be barred from receiving any future City funds.
17. Participation of Minorities, Women, Disadvantaged and Small Businesses

To the fullest extent possible in the administration of this Agreement, Contractor agrees to provide opportunities for minorities, women, disadvantaged and small businesses to participate in procurements under this Agreement.

18. Procurement shall be conducted at least once every three (3) years.
19. The Contractor shall not use funds provided under this Agreement to duplicate facilities or services available in the area (with or without reimbursement) from Federal, State, or local sources, unless it is demonstrated that the Agreement-funded alternative services or facilities would be more effective or more likely to achieve performance goals.

D. Cost or Price Analysis:

1. Contractor shall establish standards for the performance of cost or price analysis.
2. Contractor shall perform a cost or price analysis in connection with every procurement action, including contract modifications to determine that the expenditure is reasonable. The method and degree of analysis depends on the facts surrounding the particular procurement and pricing situation, but at a minimum, the Contractor shall make independent estimates before receiving bids or proposals.
 - a. A cost analysis is necessary when the offeror is required to submit the elements of the estimated cost, when adequate price competition is lacking, and for sole source procurement, including contract modifications or change orders, unless price reasonableness can be established on the basis of a

catalog or market price of a commercial product sold in substantial quantities to the general public or based on prices set by law or regulation. As part of its bid, the offeror shall certify that to the best of its knowledge and belief, the cost data are accurate, complete and current at the time of agreement on price.

- b. Contracts or modifications negotiated in reliance on such data should provide the awarding agency a right to a price adjustment to exclude any significant sum by which the price was increased because the contractor had submitted data that were not accurate, complete or current as certified.
 - c. Any indirect costs in a proposal must be carefully reviewed to ensure that the costs are not duplicated by direct costs. Indirect costs must be allocated in accordance with an approved cost allocation plan.
 - d. If a bidder proposes to use a subcontractor as part of its proposal, all costs in the proposed subcontract must also be evaluated in the same manner as for the primary proposal.
 - e. Cost analysis must carefully evaluate salaries of owners of sole proprietorships or partnerships who submit offers to ensure that they are in line with the services to be performed.
3. A price analysis should be used in all other instances to determine the reasonableness of the proposed contract price. The following price analysis techniques shall be used: i) comparison of proposed prices received; ii) comparison of prior prices received and current contract proposed prices for the same or similar requirement; iii) application of rough yardsticks (e.g., dollars per square foot, dollars per placement); iv) comparison with competitive published price lists and published market prices; and v) comparison with agency's independent developed cost estimates.

The following cost analysis shall be used to:

- a. Verify cost or pricing data and evaluate cost elements;
 - b. Evaluate the effect of the offeror's current practices on future costs;
 - c. Compare proposed costs for individual cost elements;
 - d. Verify that offeror's cost submissions are in accordance with cost principles (allowable/allocable); and
 - e. Review to determine that all necessary cost or pricing data have been submitted.
4. Agreement procurement shall not permit excess program income (for nonprofit and governmental entities) or excess profit (for private for-profit entities). If profit or program is included in the price, the City or the Contractor shall negotiate profit or program income as a separate element of the price for each contract/subcontract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit or program income, consideration shall be given to:
- a. The complexity of the work to be performed;

- b. The risk borne by the contractor;
 - c. The contractor's investment;
 - d. The amount of subcontracting;
 - e. The quality of the contractor's record of past performance;
 - f. Industry profit rates in the surrounding geographical area for similar work;
and
 - g. Market conditions in the surrounding geographical area.
5. The cost plus a percentage of cost method of contracting shall not be used.

E. Awarding of Agreement/Contract

1. Prior to an award of a contract, the City/Contractor shall make a determination that the Contractor/Subcontractor has demonstrated effectiveness in providing the requested services. Agreements/Contracts shall be made only with responsible Contractors/Subcontractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. The selected proposer must be a responsive entity that has submitted a proposal or bid which meets all requirements of the solicitation adequately, which includes responding to the Request for Proposal (RFP)/Request of Qualification (RFQ) within the required time frames, and completing all forms and documents. A responsible entity is one that has been determined to: 1) have a satisfactory record of integrity and business ethics; 2) have a satisfactory performance record; 3) have adequate financial resources to perform the contract or the ability to obtain such resources; 4) be able to comply with the required or proposed delivery of performance schedule, taking into consideration all existing commercial and business commitments; 5) have the needed organization, experience, accounting, operational control and technical skills or ability to obtain them; 6) have adequate production, construction or technical equipment and needed facilities, or the ability to obtain them; 7) be able to meet the program design specifications; 8) be able to meet performance goals which includes a showing of demonstrated effectiveness in providing employment and training services; 9) be able to provide services that can lead to the achievement of competency standards for participants; and 10) be both qualified and eligible to receive the award under the applicable law and regulation. Contractor/Subcontractor shall make the award(s) and finalize the contract(s). Contractor/Subcontractor shall follow established procedures for formal notification of offerors of the results of the evaluations and selected process.
2. The City/Contractor and its contractors/subcontractors shall make positive efforts to utilize small business and minority-owned business as sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for contracts to be performed utilizing Federal grant funds. If applicable, Contractor/Subcontractor certifies that it has complied with Mayoral Directive 2001-26 regarding the Outreach Program for Personal Services Contracts Greater than \$100,000.
3. Where such advertised bids are obtained, the awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the grantee, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid. No points shall be given for status as subcontractors or a contractor with

an approved childcare policy within existing delivery systems. However, if a bid results in a tie score, preference may be given to the contractor or a subcontractors with an approved child care policy.

4. Any or all bids may be rejected when it is in the City/Contractor's interest to do so, and such rejections are in accordance with applicable State and local law, rules, and regulations.

F. Funding Restrictions for High-Risk Contracts

1. A contractor may be considered "high-risk" if an awarding agency determines that the contractor is otherwise responsible but:
 - a. Has a history of unsatisfactory performance;
 - b. Is not financially stable;
 - c. Has a management system that does not meet the management standards set forth in this part; or
 - d. Has not conformed to terms and conditions of a previously awarded grant or sub-grant.
2. If the City/Contractor agency determines that a grant or sub-grant will be made to a "high-risk" contractor or subcontractors, then special funding restrictions that address the "high-risk" status may be included in the contract or subcontract. Funding restrictions may include, but are not limited to:
 - a. Use of reimbursements rather than advances or payment upon completion of the project;
 - b. Requiring additional and/or more detailed financial or performance reports;
 - c. Additional monitoring;
 - d. Requiring the contractor or subcontractors to obtain specific technical or management assistance, and/or
 - e. Establishing additional prior approvals (e.g., requiring awarding agency approval prior to hiring/firing, award of small purchase contracts).
3. If the City/Contractor decides to impose such funding restrictions, the awarding official will notify the contractor or subcontractors as early as possible, in writing, of:
 - a. The nature of the funding restriction(s);
 - b. The reason(s) for imposing them;
 - c. The corrective actions which must be taken before they will be removed and the time allowed for completing the corrective actions;
 - d. The method of requesting reconsideration of the restrictions imposed; and
 - e. Additional prior approvals.

G. City Code of Conduct

All contractors shall adopt a Code of Conduct in accordance with the requirements as set forth in §504 of this Agreement.

H. Methods of Procurement

Contractor shall use one (1) of the following methods of procurement either by bid or proposal, as appropriate for each procurement action, for entering into contracts with subcontractors. Contractors shall conduct procurement in a manner that provides full and open competition. Contractor shall perform a cost or price analysis in connection with every procurement action, including contract modifications to determine that the expenditure is reasonable. When any purchase is made, it can only be for an allowable cost. Invitations for bids shall clearly set forth all requirements that the bidder must fulfill in order for his bid to be evaluated by the grantee. Grievance process procedures shall be included in each of the following methods of advertised procurement. Specific requirements and procedures are set forth in 24 CFR §84.44, 24 CFR §85.36, Los Angeles City Charter §370-§372, and OMB Circular A-110, incorporated herein by reference.

Prior to entering into any subcontract that has a value of One Thousand Dollars (\$1,000) or more, the Contractor shall submit to the City evidence that it has received a minimum bid(s) for such subcontractors and documentation that justifies the selection of the successful bidder. The Contractor shall maintain records showing the parties solicited and the bids submitted.

1. Small Purchase Procedures: Small purchases are made from vendors for goods or services under \$100,000. Following the procedures for small purchases will constitute justification of the procurement method chosen. The bid must indicate the quantity, time frame and all other requirements of the product or service sought. Bids must be solicited from vendors that can reasonably be expected to provide the goods or services needed.

The requirements are:

Dollar Range of Purchase	Contract and Method
\$1 to \$10,000	1 bid*

*Bid may be a verbal quote, but must be documented for the project file.

\$10,001 to \$100,000	3 written bids received**
-----------------------	---------------------------

**Three (3) bids must be received by Contractor. The bid process and bids received must be documented in writing in the file. The Request for Bid must either be provided in writing to the vendors, or transmitted as uniformly as possible over the telephone. To be considered, the bid response must be signed and dated by the vendor.

2. Purchase/Services Over \$100,000

- a. Sealed Bids—Formal Advertising: Contractor shall prepare an Invitation for Bid (IFB) or similar solicitation document which includes full and clear definitions and descriptions of the items to be procured and key performance criteria, dimensions or specifications. Sealed bids shall be solicited publicly for procurement for a firm-fixed-price contract (lump sum or unit price), or other fixed-price arrangement.

- b. Competitive Proposals: Proposals shall normally be conducted with more than one (1) source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded. Contractors shall ensure that they use a documented methodology for technical evaluations and shall award the contract to the responsible offeror whose proposals are most advantageous to the program with price, technical, and other factors considered.
- c. Noncompetitive Proposals—Sole Source: To conduct a noncompetitive procurement the criteria here must be met. Sole source contracts are defined as solicitation of a proposal from only one (1) source, the funding of an unsolicited proposal, or after solicitation of a number of sources, when competition is determined inadequate.

Procurement by noncompetitive proposals may be used only when the award of a contract is infeasible under small purchase procedures, sealed bids, or competitive proposals and one (1) of the following circumstances applies:

- (1) The item or service is available only from a single source; or
- (2) The public exigency or emergency need for the item or service does not permit a delay resulting from competitive solicitation and the procurement is for a limited time only; or
- (3) The awarding agency authorizes noncompetitive proposals; or
- (4) After solicitation of a number of sources, competition is determined inadequate.

3. Contract Provisions

All contracts must contain at a minimum the following provisions:

- a. Specific deliverables and the basis for payment;
- b. Provisions requiring compliance with the CDA including, but not limited to other funding source regulations;
- c. Provisions that describe remedies for breach;
- d. Provisions that describe Grantors CDA and other funding sources patent and copyright rules;
- e. Provisions for termination for cause and convenience;
- f. Access to records for audit purposes;
- g. Audit requirements;
- h. Provisions for payment and delivery;
- i. Provisions describing contract amendment procedures;
- j. Provisions against assignment;

- k. Provisions for equal opportunity and non-discrimination;
- l. Provisions prohibiting conflicts of interest.
- I. Appeal and Dispute Procedures: The City and its contractors shall have protest procedures to handle and resolve disputes relating to their procurement. A protester shall exhaust all administrative remedies with the contractor before pursuing a protest at a higher level. Notice of appeal rights and procedures must be given to all bidders.
- J. Regardless of the amount of the award, if the Contractor receives State Community Services Block Grant (CSBG) funds as a funding source under this Agreement, all sub-recipients of such funding shall certify to a Drug-Free Workplace. All awards to sub-recipients in excess of \$100,000 shall certify that no funds shall be used for lobbying. All contracts and awards to vendors and sub-recipients in excess of \$25,000 shall include debarment certifications.

These guidelines are included to provide additional information regarding conflict of interest regulations in California, the California Multiple Awards System (CMAS), and sample procurement steps for sealed bids and request for proposals. The sub-recipients may use the CMAS for procurement following the small purchase guidelines for procurement under \$25,000; for procurement over \$25,000, three written quotes are required. If there are insufficient vendors to provide the quotes, a sole source justification should be written.

- K. RFP/RFQ Procedures. It is a City policy to contract for services on the basis of demonstrated competence and reasonable price by obtaining bids or proposals. Before preparing a RFP for the procurement of services, several preliminary activities should be performed including the determination of the City's/Contractor's needs, consulting with contractors and other local governments, and developing an approach to the procurement process. Excluding small purchases, the Contractors must justify the procurement method used for each purchase. Once these activities are completed, the development of a RFP can begin.

The following guidelines apply to the preparation of written RFPs or RFQs. These provisions apply to this Agreement and to City Contractors who will need to make some modification to the language, which clarifies that the solicitation is from the Contractor and not the City. In the RFP process, cost is usually one of several selection criteria that proposers must address in their proposals. By contrast in the RFQ process, cost becomes a selection criterion only after qualified proposers have been identified from a review of their qualifications. RFQs are usually reserved for the selection of engineers, architects, or other highly specialized, technical providers.

The purpose of the guidelines is to present ideas and material that are characteristic of well prepared solicitations. The guidelines are not intended to provide total coverage of any topic. While the guidelines apply generally, exceptional circumstances may call for modifying or excluding one or more of the suggested provisions. In any case, the RFP or RFQ should be tailored to the job that needs to be done. The arrangement, adequacy, clarity, simplicity and appeal of the solicitation document shall remain the responsibility of the administering agency. To be most effective, a solicitation document should be clear and complete but avoid repetition, legalism or extraneous information. RFPs must be publicly advertised.

- 1. Standard RFP Format.
 - a. Cover Page. The cover page should describe briefly the scope of services requested, the format, the issuance date and the deadline of date and time for submission of proposals, and the Contractor contact for further information about the RFP. Include the name, address, telephone number

and location of the person to whom the submission is to be made. Exhibit A depicts a sample cover page. If a proposers conference is appropriate, include information on the location, time and date of the event. All RFPs should include a deadline for receipt. Contractors shall have procedures to ensure that only proposals received in accordance with the date and time specified will be reviewed. All RFPs shall include the approximate date of the award notification.

b. Contents. The RFP should contain the following standard items which are discussed below:

- 1) Introduction
- 2) RFP Provisions
- 3) Statement of Work and Evaluation Criteria
- 4) Proposal Specifications
- 5) RFP Items Not Covered
- 6) References
- 7) Standard Contract Provisions
- 8) Indemnity and Insurance

- c. Introduction. Describe in general terms the nature, scope and schedule of the work to be contracted, and the Contractor that will be responsible for administering the contract, including name and address of contracting agency. Describe the Contractor's organizational structure that is in place or will be established to facilitate the types of relationships and interactions which will be required to successfully complete the engagement. Present sufficient background and historical information about the project and the Contractor or other agency involved to permit a full understanding of the work to be contracted. State that as a rule all proposals must be submitted in the English language, and that all numerical data must be the dollar-foot-pound-seconds units of measurement.

Describe the minimum and maximum amount of funding for the contract.

Request that proposals be prepared simply and economically, avoiding the use of unnecessary promotional materials. Proposals shall include a Table of Contents and a signature and date block for the offeror. Specify the number of copies of the proposal to be submitted to the Contractor. State that the Contractor shall accept no responsibility for the cost of preparing any proposal.

Request that proposals be enclosed in a single, sealed package plainly marked with the words "Proposal for (name of project as referenced in the RFP)." Declare that proposals shall be made as firm offers for a set period of time following the deadline for submittal. To ensure that the release of a RFP and receipt of any proposals are properly coordinated, contact the Purchasing Division, Department of General Services for assistance.

Direct proposers to address all questions regarding the RFP and their proposals to the assigned Contractor proposal administrator only. State that failure to comply with this requirement, other than as specifically permitted in the RFP, may disqualify a proposer from further consideration.

Contractor shall direct staff to respond to questions regarding the RFP and the submission requirements. Contractor shall record all responses, except those that are clearly answered in the RFP. Contractor shall provide a written copy of the responses to all parties to whom the RFP has been distributed, including those who attended the proposers' conference. This should be provided in a timely and frequent manner to ensure that all proposers are aware of the responses when preparing their proposal.

State that it is the Contractor's intent to award a contract, in a form approved by the Contractor, to the selected proposer. Indicate that the RFP and the Contractor's proposal or any part thereof may be incorporated into and made a part of the contract. State that the Contractor reserves the right to further negotiate the terms and conditions of the contract. State that the Contractor, however, shall reserve the right to withdraw the RFP, to reject any proposal for noncompliance with RFP provisions, or not to award a contract at any time because of unforeseen circumstances or if it is determined to be in the best interest of the Contractor.

- d. **Statement of Work.** Describe the tasks that the subcontractor will be responsible to perform. Clearly define the type, scope, schedule, and other relevant characteristics of each task. Use quantitative language whenever possible to establish an objective basis from which to evaluate responses. Describe the status and/or progress reporting that will be required of the subcontractor. Specify any other items that proposers should address, including, but not limited to, the following:

- 1) Background or project content
- 2) General requirement description
- 3) Related projects
- 4) Problem statement
- 5) Statutory or regulatory foundation
- 6) *Project objectives
- 7) *Purpose
- 8) *How results will be used
- 9) *Scope of work
- 10) *Population to be served
- 11) *Number to be served
- 12) *Training or services to be provided
- 13) *Period of Performance
- 14) *Performance Standards
- 15) *Reporting Requirements

*Must be included in the proposal

Generally RFP based contracts are awarded on the basis of several criteria, such as the level of effort and method proposed to do the work, the credentials and related work experience of subcontractor personnel assigned to do the work, City/Contractor policy issues and price. Describe in the RFP the general criteria the Contractor intends to use to evaluate the written responses, and the assigned weight of each criterion.

Proposed evaluation criteria can be complicated by the varying degrees to which the proposals meet, exceed, or fall below the specific requirements of the RFP. Scale the evaluation process to manageable proportions. The more complete and specific the RFP, the better it serves as a standard for measuring and evaluating proposals. Include a statement that the Contractor shall reserve the right to use such other criteria as may be deemed appropriate in evaluating the proposals, even if such criteria are not mentioned in the RFP. State that proposers submitting the highest-rated written responses may be called for an oral interview to further assess their qualifications. Describe the evaluation criteria that will be used in the interview if different from the written criteria in the RFP. A description of assigned weights may be included if appropriate.

If technical services are to be procured, a technical requirements section should be prepared. The technical requirements section should organize information in a form understandable to potential bidders and Contractor staff. For example, items that might be included in a technical requirements section to procure an automated system include:

- 1) Description of current hardware and software operating environment;
- 2) Detailed description of all hardware and software requirements;
- 3) Indication of need for data conversion assistance;
- 4) Outline of orientation and training requirements; and,
- 5) Indication of the need for a benchmark demonstration of system capabilities.

e. Proposal Specifications. Request proposers to demonstrate their capability to fulfill the work to be contracted. Proposers should provide specific information about the personnel, including subcontractors, if possible, who will be assigned to perform the work; past performance on projects of a similar nature including a customer list, if possible; the proposed price to complete the work; adequate documentation on the financial status of the firm which will permit the Contractor to evaluate the proposer's ability to complete the work; and other work elements deemed necessary to evaluate the proposals. State that responses to the RFP must be made in accordance with the format set forth in the RFP. Indicate that a comprehensive index which includes a clear definition of the content of the proposal and which identifies the information set forth therein by sequential page number and appropriate reference number is required. State that failure to meet this requirement may be cause for rejection of the proposal as non-responsive. Generally, each proposer should be requested to address the following specifications:

- 1) Assigned Personnel. The names of the key personnel, whom the proposer employs or plans to employ or hire through subcontract, to perform the requested services. For each person listed, the following information should be provided:
 - a) Description of the work he or she will perform;

- b) Amount of time he or she will be assigned to work on the project;
 - c) Academic achievements, including all college undergraduate and graduate education;
 - d) Relevant work experience in years and level of responsibility.
 - e) An organization chart depicting the lines of authority, the relationships of the organizational units and the names of the key personnel who will be doing the work.
- 2) Project Cost. The total cost to the Contractor, broken down in salaries, expenses, equipment, and in hours and total dollar amount by deliverable task.
 - a) Salary, or wage; billing rate for each employee.
 - b) The proposed schedule of payment.
 - c) All resources proposed to be supplied by the Contractor.
- 3) Deliverables. The products that the subcontractor will deliver to the Contractor according to a set schedule, including the nature of the deliverables, e.g., oral or written reports, videotapes, or architectural models and, if applicable, number of copies to be provided of written products.
- f. RFP Items Not Covered. Proposals should cover the statement of work and all the RFP specifications. Otherwise, proposers should state why the RFP requirements are not being addressed. If proposers wish to present qualifications in addition to the required items such information should be presented under the heading "Additional Qualifications We Wish To Present". Proposers who do not wish to present such information should state: "There are no additional qualifications we wish to present".
- g. References. Request proposers to support their presentations by listing successfully completed projects that resemble the work to be done and the dates of completion. Request the name, title, address and phone numbers of a contact for each project.
- h. Standard Contract Provisions. Sample standard contract provisions have been provided by the City of Los Angeles for Contractor's use. The document, which is available from the City, is updated periodically. Check with the City to ascertain use of the latest version. Unless the standard provisions are incorporated by reference and attached to the RFP, the general contract provisions that are expected to be included in the contract should be excerpted from the standard provisions document and provided to prospective proposers.
- i. Indemnity and Insurance. The standard City of Los Angeles insurance conditions are incorporated into the sample standard subcontract provisions. The specific insurance coverages and limits shall be described by contractor in the RFP. These coverages and limits should be tailored to the individual subcontract. For City contracts they are set by the City Risk Management

staff in the Office of the City Administrative Officer of the City of Los Angeles. There are special endorsement forms (Form Gen. 133 through Form Gen. 146) that correspond to each type of insurance required by the City. The appropriate blank forms corresponding to each item filled in on the Insurance Requirements Sheet should be obtained from the Contractor and attached to the RFP. Contractors will need to modify these forms for their own procurement.

- j. Signatures and Declarations. Each proposal must be signed on behalf of the proposer by an officer authorized to bind the proposer, and must include the following declaration:

This proposal is genuine, and not sham or collusive, nor made in the interest or in behalf of any person not herein named; the proposer has not directly or indirectly induced or solicited any other proposer to put in a sham bid, or any other person, firm or corporation to refrain from submitting a proposal; and the proposer has not in any manner sought by collusion to secure for himself an advantage over any other proposer.

- k. Cover Letter of Proposal. The cover letter of each proposal should be limited to one page. The letter must include the title, address and telephone number of the person or persons who will be authorized to represent the proposer. The letter must be signed by a company officer authorized to bind the company to all commitments made in the proposal.

- l. Proposers Conference. Determine if a proposers' conference will be conducted. A proposers' conference may be appropriate especially if the work to be contracted has not previously been done by contract or not done at all. If a proposers' conference is to be scheduled, designate a date, time and place at which proposers will be given the opportunity to pose questions about the RFP and notify all parties to whom the RFP has been distributed. The notification can be included in the RFP. Invite proposers to submit their questions in writing prior to the conference, and arrange, to the extent possible, for all questions to be answered at the conference. A memorandum for the proposers listing attendees, documenting in writing each question answered at the conference, any actions taken during the conference, etc. shall be prepared to document the conference and conveyed to the participants. Contractors shall provide this information directly to the proposers who received the RFP but were unable to attend the conference or as an addendum to the RFP for any subsequent requesters. The memorandum should be filed with the record set of contractual documents retained by the Contractor. Materials handed out at the proposer's conference shall be available to all other parties following the conference. If a proposers' conference was not initially planned but the number or extent of questions regarding the RFP indicates a need for one, a separate notice should be mailed and the RFP due date extended if necessary.

- m. Proposal Evaluation for Request for Proposals (RFP). Contractor/City shall develop proposal evaluation procedures in accordance with the requirements of Section D.14 above.

- n. Failed Competition. The RFP shall provide that it is the Contractor's/City's authority to determine that the procurement process has failed. The basis for failure should include a lack of response to RFP; not enough bidders; a determination that the responses do not agree with mandatory requirements

of the RFP; a determination that no proposer demonstrated effectiveness in providing the services solicited, and/or a determination that the award of a contract at this time to any proposer would not be cost effective, responsible or prudent. In the event that the City/Contractor determines that the procurement has failed, it may elect to negotiate a sole source agreement or develop and issue a new Request for Proposals.

- o. Disposition of Proposals. State that all proposals submitted in response to the RFP shall become the property of the Contractor/City and a matter of public record. Also, proposers must identify all copyrighted material, trade secrets or other proprietary information that they claim are exempt from disclosure under the Public Records Act (California Code Sections 6250 et seq.). In the event such an exemption is claimed, the proposer shall be requested to state in the proposal that he or she will defend any action brought against the Contractor/City for its refusal to disclose such material, trade secrets or other proprietary information to any party making a request therefore.
- p. RFP Revisions. Any revision made to an issued RFP shall be sent to all parties known to have received a copy of the original RFP.
- q. Staff Reassignments. If the original selection of a subcontractor will be based in part on the qualifications of specific key individuals named in the proposal, state that the Contractor/City must approve in advance any changes in individuals or levels of commitment to the project. State that the Contractor will reserve the right to have the subcontractor replace any subcontractor project personnel.
- r. Inclusion of Contractual Provision Required by External Funding Source. Federal, state and other funding agencies typically impose requirements on recipients of funds that apply to subcontractors. Such requirements should be reflected in RFPs and related contracts.
- s. City Policy Issue Summaries.
 - 1) Affirmative Action. The City of Los Angeles' Administrative Code (Division 10, Chapter 1, Article 1, Section 10.8) establishes an affirmative action program for vendors doing business with the City. State that as a condition of contract award, the selected proposer shall be required to comply with the provisions of the City's Affirmative Action program, including the submission of one of the following affirmative action plans: a) a trade association affirmative action plan, b) the proposer's own affirmative action plan, or c) an executed copy of the Los Angeles City Affirmative Action Plan. Refer to the provisions herein regarding nondiscrimination and affirmative action and recite the text of this provision in the RFP. Urge proposers to include an affirmative action plan in their proposals. Attach as an appendix to the RFP the City forms (GSS-AA 1) instructing prospective subcontractors about compliance with the City's Affirmative Action Program.
 - 2) MBE, WBE and Other Business Enterprise Outreach Program. It is the policy of the City to provide minority business enterprises (MBEs), women business enterprises (WBEs) and all other business enterprises an equal opportunity to participate in the performance of all Contractor contracts, including procurement, construction and

personal services. This policy applies to all Contractors. Be sure to comply with the provisions of City Executive Directive I-B and 1-C to ensure that MBEs, WBEs, and all other businesses are offered the greatest opportunity to compete for and perform subcontracts and provide personal services to the Contractor.

Include a statement that proposers are to assist the Contractor in implementing this policy by taking all reasonable steps to ensure that all available business enterprises, including MBEs and WBEs, have an equal opportunity to compete for and participate in Contractor subcontracts. Inform proposers that equal opportunity will be determined by their good faith efforts comply with the Contractor's outreach program. Advise proposers that participation by MBEs, WBEs, and all other businesses may be in the form of joint ventures or subcontracting. Contractor is responsible for the implementation of MBE/WBE procedures.

- 3) Child Care Policy. It is the policy of the City to encourage all its vendors to adopt a stated policy on child- care. This policy acknowledges the importance of quality, affordable and accessible child care and commits the Contractor to use its resources as an educator, employer, role model and facilitator to act as a catalyst in expanding the supply of quality, affordable and accessible child care.

Include a statement informing proposers of the City's Child Care Policy and that, to the extent permitted by law, proposers with stated child- care policies shall receive preference in contracting with the Contractor. Bids are not non-responsive if child- care documents are not provided.

2. Consultant Directory. To assist Contractors in identifying potential subcontractors, the Office of the City Administrative Officer of the City of Los Angeles (CAO) maintains a computerized consultant directory. Firms are listed according to their fields of expertise, e.g., bond counsel, CPA, and human resources. Contact the CAO Productivity Group for access to the directory and for lists of firms in the form of mailing labels, hard copy reports or both.

The City shall report the fact and disclose the Invention to the Grantor. Unless there is a prior agreement between the City and the Grantor, the Grantor shall determine whether to seek protection on the Invention. The Grantor shall determine how the rights in the Invention, including rights under any patent issued thereon, will be allocated and administered in order to protect the public interest consistent with the policy ("Policy") embodied in the Federal Acquisition Regulations System, which is based on Ch. 18 of Title 35 U.S.C. §200 *et seq.* (Pub.L. 95-517, Pub.L. 98-620, 37 CFR, Part 401); Presidential Memorandum on Government Patent Policy to the Heads of the Executive Departments and Agencies, dated 2/18/1983; and Executive Order 12591, 4/10/87, 52 FR 13414, 3 CFR, 1987 Comp., p. 220 (as amended by Executive Order 12618, 12/22/87, 52 FR 48661, 3 CFR, 1987 Comp. p. 262). Where the data are not first produced under this Agreement or are published copyrighted data with the notice of 17 U.S.C. §401 or §402, the Grantor acquires the data under a copyright license as set forth in 48 CFR 27.404(f) (2) instead of unlimited rights (48 CFR 27.404(a)).
2. Obligations Binding on Subcontractors Contractor shall require all subcontractors to comply with the obligations of this section by incorporating the terms of this section into all subcontracts.

E. Intellectual Property Provisions for California Sub-Grants – IF APPLICABLE

This Agreement is funded in part with federal "pass through" funds from the State of California (State). The following requirements are applicable to this Agreement. In any Contract funded in whole or in part by the federal government, City/State may acquire and maintain the Intellectual Property rights, title, and ownership, which

result directly or indirectly from the Contract, except as provided in 37 Code of Federal Regulations Part 401.14. However, pursuant to 29 CFR Part 97.34, the federal government shall have a royalty-free, non-exclusive, irrevocable, paid-up license throughout the world to use, duplicate, or dispose of such Intellectual Property throughout the world in any manner for governmental purposes and to have and permit others to do so.

F. Ownership

1. Except where City/State has agreed in a signed writing to accept a license, City/State shall be and remain, without additional compensation, the sole owner of any and all rights, title and interest in all intellectual property, from the moment of creation, whether or not jointly conceived, that are made, conceived, derived from, or reduced to practice by Contractor or City/State and which result directly or indirectly from this Agreement.
2. For the purposes of this Agreement, Intellectual Property means recognized protectable rights and interest such as: patents (whether or not issued,) copyrights, trademarks, service marks, applications for any of the foregoing: inventions, trade secrets, trade dress, logos, insignia, color combinations, slogans, moral rights, right of publicity, author's rights, contract and licensing rights, works, mask works, industrial design rights, rights of priority, know how, design flows, methodologies, devices, business processes, developments, innovations, good will any data or information maintained, collected or stored in the ordinary course of business by City/State, and all other legal rights protecting intangible proprietary information as may exist now and/or hereafter come into existence, and all renewals and extensions, regardless of whether those rights arise under the laws of the United States, or any other state, country, jurisdiction.
3. For the purposes of the definition of Intellectual Property, "works" means all literary works, writings and printed matter, including the medium by which they are recorded or reproduced, photographs, art work, pictorial and graphic representations and works of a similar nature, film, motion pictures, digital images, animation cells, and other audiovisual works, including positives and negatives thereof, sound recordings, tapes, educational materials, interactive videos, computer software and any other materials of products created, produced, conceptualized and fixed in a tangible medium of expression. It includes preliminary and final products and any materials and information developed for the purposes of producing those final products. "Works" does not include articles submitted to peer review or reference journals or independent research projects.
4. In the performance of this Agreement, Contractor may exercise and utilize certain of its Intellectual Property in existence prior to the effective date of this Agreement. In addition, under this Agreement, Contractor may access and utilize certain of City's/State's Intellectual Property in existence prior to the effective date of this Agreement. Except as otherwise set forth herein, Contractor shall not use any of City's/State's Intellectual Property now existing or hereafter existing for any purposes without the prior written permission of City/State. Except as otherwise set forth herein, neither Contractor nor City/State shall give any ownership interest in or rights to its Intellectual Property to the other Party. If, during the term of this Agreement, Contractor accesses any third-party Intellectual Property that is licensed to City/State, Contractor agrees to abide by all license and confidentiality restrictions applicable to City/State in the third-party's license agreement.
5. Contractor agrees to cooperate with City/State in establishing or maintaining City/State's exclusive rights in the Intellectual Property, and in assuring City's/State's sole rights against third-parties with respect to the Intellectual Property. If the Contractor enters into any agreements or subcontracts with other parties in order to perform this Agreement, Contractor shall require the terms of agreement(s) to include all Intellectual Property provisions herein. Such terms must include, but are not limited to, the subcontractor assigning and agreeing to assign to City/State all rights, title and interest in Intellectual Property made, conceived, derived from, or reduced to practice by the subcontractor, Contractor or City/State and which result directly indirectly from this Agreement or any subcontract.
6. The requirement for the Contractor to include all Intellectual Property Provisions in all agreements and subcontracts it enters into with other parties does not apply to agreements or subcontracts that are for customized and on-the-job-training as authorized under 20 CFR 663.700-730.

7. Contractor further agrees to assist and cooperate with City/State in all reasonable respects, and execute all documents and, subject to reasonable availability, give testimony, and take all further acts reasonably necessary to acquire, transfer, maintain, and enforce City's/State's Intellectual Property rights and interests.

G. Retained Rights/License Rights

1. Except for Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or City/State and which result directly or indirectly from this Agreement, Contractor shall retain title to all of its Intellectual Property to the extent such Intellectual Property is in existence prior to the effective date of this Agreement. Contractor hereby grants to City/State, without additional compensation, a permanent, non-exclusive, royalty free, paid-up, worldwide, irrevocable, perpetual, non-terminable license to use, reproduce, manufacture, sell, offer to sell, import, export, modify, publicly and privately display/perform, distribute, and dispose of Contractor's Intellectual Property with the right to sub-license through multiple layers, for any purpose whatsoever, to the extent it is incorporated in the Intellectual Property resulting from this Agreement, unless Contractor assigns all rights, title and interest in the Intellectual Property as set forth herein.
2. Nothing in this provision shall restrict, limit, or otherwise prevent Contractor from using any ideas, concepts, know-how, methodology or techniques related to its performance under this Agreement, provided that Contractor's use does not infringe the patent, copyright, trademark rights, license or other Intellectual Property rights of City/State or third-party, or result in a breach or default of any provisions herein or result in a breach of any provisions of law relating to confidentiality.

H. Copyright

1. Contractor agrees that for purposes of copyright law, all works made by or on behalf of Contractor in connection with Contractor's performance of this Agreement shall be deemed "works for hire." Contractor further agrees that the work of each person utilized by Contractor in connection with the performance of this Agreement will be a "work made for hire," whether that person is an employee of Contractor or that person has entered into an agreement with Contractor to perform the work. Contractor shall enter into a written agreement with any such person that: (i) all work performed for Contractor shall be deemed a "work made for hire" under the Copyright Act and (ii) that person shall assign all right, title, and interest to City/State to any work product made, conceived, derived from or reduced to practice by Contractor or City/State and which result directly or indirectly from this Agreement.
2. All materials, including, but not limited to, computer software, visual works or text, reproduced or distributed pursuant to this Agreement that include Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or City/State and which result directly or indirectly from this Agreement may not be reproduced or disseminated without prior written permission from City/State.

I. Patent Rights

With respect to inventions made by Contractor in the performance of this Agreement, which did not result from research and development specifically included in the Agreement's scope of work, Contractor hereby grants to City/State a license for devices or material incorporating, or made through the use of such inventions. If such inventions result from research and development work specifically included within the Agreement's scope of work, then Contractor agrees to assign to City/State, without additional compensation, all its rights, title and interest in and to such inventions and to assist City/State in securing United States and foreign patents with respect thereto.

J. Third-Party Intellectual Property

Except as provided herein, Contractor agrees that its performance of this Agreement shall not be dependent upon or include any Intellectual Property of Contractor or third-party without first: (i) obtaining City's/State's prior written approval; and (ii) granting to or obtaining for City's/State's, without additional compensation, a license, as described in Section F.3 above, for any of Contractor's or third-party's Intellectual Property in existence prior to the effective date of this Agreement. If such a license upon these terms is unattainable, and City/State

determines that the Intellectual Property should be included in or is required for Contractor's performance of this Agreement, Contractor shall obtain a license under terms acceptable to City/State.

K. Warranties

1. Contractor represents and warrants that:

- a. It has secured and will secure all rights and licenses necessary for its performance of this Agreement. Neither Contractor's performance of this Agreement, nor the exercise by either Party of the rights granted in this Agreement, nor any use, reproduction, manufacture, sale, offer to sell, import, export, modification, public and private display/performance, distribution, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or City/State and which result directly or indirectly from this Agreement will infringe upon or violate any Intellectual Property right, non-disclosure obligation, or other proprietary right or interest of any third-party or entity now existing under the laws of, or hereafter existing or issued by, any state, the United States, or any foreign country. There are currently no actual or threatened claims by any such third-party based on an alleged violation of any such right by Contractor.
- b. Neither Contractor's performance nor any part of its performance will violate the right of privacy of, or constitute a libel or slander against any person or entity.
- c. It has secured and will secure all rights and licenses necessary for Intellectual Property, including, but not limited to, consents, waivers or releases from all authors or music or performances used, and talent (radio, television, and motion picture talent), owners of any interest in and to real estate, site locations, property or props that may be used or shown.
- d. It has not granted and shall not grant to any person or entity any right that would or might derogate, encumber, or interfere with any of the rights granted to City/State in this Agreement.
- e. It has appropriate systems and controls in place to ensure that state funds will not be used in the performance of this Agreement for the acquisition, operation or maintenance or computer software in violation of copyright laws.
- f. It has not knowledge of any outstanding claims, licenses or other charges, liens, or encumbrances of any kind or nature whatsoever that could affect in any way Contractor's performance of this Agreement.

2. City/State makes no warranty that the intellectual property resulting from this sub-grant Agreement does not infringe upon any patent, trademark, copyright or the like, now existing or subsequently issued.

L. Intellectual Property Indemnity

1. Contractor shall indemnify, defend and hold harmless City/State and its licensees and assignees, and its officers, directors, employees, agents, representatives, successors, and users of its products ("Indemnities") from and against all claims, actions, damages, losses, liabilities (or actions or proceedings with respect to any thereof), whether or not rightful, arising from any and all actions or claims by any third-party or expenses related thereto (including, but not limited to, all legal expenses, court costs, and attorney's fees incurred in investigating, preparing, serving as a witness in, or defending against, any such claim action, or proceeding, commenced or threatened) to which any of the Indemnities may be subject, whether or not Contractor is a party to any pending or threatened litigation, which arise out of or are related to: (i) the incorrectness or breach of any of the representations, warranties, covenants or agreements of Contractor pertaining to Intellectual Property; or (ii) any Intellectual Property infringement, or any other type of actual or alleged infringement claim, arising out of City's/State's use, reproduction, manufacture, sale, offer to sell, distribution, import, export, modification, public and private performance/display, license, and disposition of the Intellectual Property made, conceived, derived from, or reduced to practice by Contractor or City/State and which result directly or indirectly from this Agreement. This indemnity obligation shall apply irrespective of whether the infringement claim is based on a patent, trademark or copyright registration that was issued after the effective date of this Agreement.

City/State reserves the right to participate in and/or control, at Contractor's expense, any such infringement action brought against City/State.

2. Should any Intellectual Property licensed by the Contractor to City/State under this Agreement become the subject of an Intellectual Property infringement claim, Contractor will exercise its authority reasonably and in good faith to preserve City's/State's right to use the licensed Intellectual Property in accordance with this Agreement at no expense to City/State. City/State shall have the right to monitor and appear through its own counsel (at Contractor's expense) in any such claim or action. In the defense or settlement of the claim, Contractor may obtain the right for City/State to continue using the licensed Intellectual Property, or replace or modify the licensed Intellectual Property so that the replaced or modified Intellectual Property becomes non-infringing provided that such replacement or modification is functionally equivalent to the original licensed Intellectual Property. If such remedies are not reasonably available, City/State may be entitled to a refund of all monies paid under this Agreement, without restriction or limitation of any other rights and remedies available at law or in equity.
3. Contractor agrees that damages alone would be inadequate to compensate City/State for breach of any term of these Intellectual Property provisions herein by Contractor. Contractor acknowledges City/State would suffer irreparable harm in the event of such breach and agrees City/State shall be entitled to obtain equitable relief, including without limitation an injunction, from a court of competent jurisdiction, without restriction or limitation of any other rights and remedies available at law or in equity.

M. Survival

The provisions set forth herein shall survive any termination or expiration of this Agreement or any project schedule.
