To whom this may concern,

I am writing you to inform you that I would like to keep a mural that is currently outside of my barbershop. This mural is representation of the city of Los Angeles. It is a mural that includes two icons of Los Angeles. Kobe Bryant and Nipsey Hussle are two heroes who have impacted many throughout their time here with us on earth. The mural brings pride and joy to many and most of all hope. Growing up as a kid I remember watching Kobe Bryant accomplish the impossible. From championship rings to breaking all time records, Kobe Bryant was a true hero in my eyes. Nipsey Hussle another great face of Los Angeles was a rap artist and an entrepreneur who also accomplished many things for the city of Los Angeles. He brought culture to the city and that is what most think about Los Angeles when asked what they love about Los Angeles. This mural has been up for almost two years now and there has not been one incident where someone decides to write over it. Graffiti is a huge problem in the city of Los Angeles and if this mural is removed it will yet be another wall for people to spray paint and vandalize. I will be hosting a community meeting at the mural site to discuss why this mural is so important fourteen days from now. Attached is a photo of the finished mural.

Sincerely,

Jonathan Chavez
