Comments for Public Posting: This proposed construction would be a blight on our community. The noise and traffic alone will make it very difficult for residents to live peacefully, not the least of whom are students at RFK School. Jamison Services has continually proven itself to be dishonest and unconcerned about the community. The parking lot for residents that exists is not ADA compliant. Human waste is left in the residential parking lot and cars are broken into on a nightly basis. There is absolutely no security provided for this structure. I am very concerned that future properties will not be financially accessible to Koreatown residents and will not be properly maintained.

Comments for Public Posting: This neighborhood is popular because there is so much that is accessible for our residents. There's always been convenient fresh cooked foods of an amazing variety, dry cleaners, shoe repair, key cutters, nail salons, and that has been fantastic. Now, the plan is to remove all of those charming conveniences with a towering (likely bland looking) building that will block the light into neighboring buildings, bring tenants whose presence will gobble up the already ridiculously small amount of neighborhood parking, and cause a huge amount of noise and dirt to be kicked up, disturbing the peace of all who live here. This is beyond distressing. I can't think of one single positive thing that it's presence is going to add to our neighborhood.
