Comments for Public Posting: Please start a program to help pay for vehicle dwellers registration and tickets rather than towing people and leaving them with nothing on the street. This is criminalizing homelessness again and towing and storing RVs cost more than the registration and tickets. If the vehicle is road worthy, passes smog and the person is open to signing up for services and housing, there should be help to prevent them from being traumatized further and adding to service resistance. This can save lives and millions of dollars in the long run, all while helping prevent sidewalk encampments, further cases of service resistance and 3 deaths a day in LA for people living on the street.
