Comments for Public Posting: Dear friends, We are MAGLET/HABITECH SAS, engineering firm, focused on urban public transport. We know about Mayor Garcetti and Mayor Kahn from London, made a team to work in innovation ideas on urban transport. We consider to participate in those team, for help LA and London citizens, to have a better transportation system and give them better quality of life. It is an elevated, based on magnet levitation powered vehicles. Able to transport passengers at 150 KM/H, with stations each 3 km and a Vía micro transit system for last mile of the journey. Designed to Transport not only people but merchandise boxes and dry selected waste. Really it could help with mitigate transit jams, cause it's speed we can offer better quality of life. Thanks in advance for your kind attention. Cordially, Carlos Montalvo Maglet/Habitech Director.
