Comments for Public Posting: I want Los Angeles residents rent SUSPENDED. I am concerned for not only mine but everyone's well being given these stressful times. Due to Covid19 I, and many others, have lost our jobs and now have to worry about living in debt for something we had no control over. Please suspend Los Angeles residents rent

Comments for Public Posting: Given the extraordinary circumstances it seems that the most compassionate and noble thing to do would be to freeze rent for residential tenants and commercial businesses until the Global pandemic is resolved. Postponing rent merely creates the burden of debt- which is not helpful. Measures have already been put in place to freeze mortgages for homeowners. It seems unfairly punitive to ask renters to continue to shoulder this burden. Do the right thing.
