Comments for Public Posting: Comments: LA Dept. of Aging. Translation Services. PLEASE READ COMMENT INTO PUBLIC RECORD. Outreach is crucial with Seniors especially where education, equipment and funds are limited and further hemmed by timidity. Translation has an added benefit in that it creates a sense of feeling of being wanted and respected, especially for those who have been marginalized for decades. Senior Centers are ideal places for outreach purposes and sense of community. Your help is sought to make serving Seniors in a variety of ways through communication so that well being and information is a given for each and every Senior . It improves quality of life so essential to an ageing population. The LA Department of Aging is is well positioned to make a difference with translation services. With thanks, Ida Talalla Echo Park -
