Comments for Public Posting: I'm appalled to see that there is nothing on the agenda for the 8/11 meeting to extend the eviction moratorium. This should be a high priority issue at this time, and it's up to the City Council to ensure that no Angeleno is evicted for not being able to pay rent in the middle of an ongoing pandemic that has left so many people out of work. This crisis is not stopping and the city's leaders need to step up and protect the thousands of residents who will be affected by this. Action is needed NOW. You have the power to do something, please use it. Thank you for your time. - Julie Pearson, 13th district

Comments for Public Posting: General public comment: The permanent anti-harassment ordinance is critical to the health of LA. Please standby your commitment to contact Council President Nury Martinez in regards to agendizing this critically important law.

Comments for Public Posting: Cancel rent and extend the eviction moratorium. This Friday eviction courts reopen, putting thousands of Angelenos at risk of becoming homeless in a pandemic, and further exacerbating LA's already shameful homelessness crisis. City council needs to act now and cancel rent, forgive rent that's been unpaid by tenants affected by the pandemic, and extend the eviction moratorium.

Comments for Public Posting: Re: ITEM NO. (20) - I am opposed to this item. The City Council should not be aiding gentrification efforts especially when there are thousands of families risking eviction in THREE days. Cancel rent and stop working with contractors that are pushing our residents out. Re: ITEM NO. (23) - The residents of Los Angeles have been abundantly clear, DEFUND THE POLICE!!! Stop giving them more money. We do not need more police! Invest in care not cops! There is a global pandemic, people are out of work, unemployment benefits have been cut - THERE IS A LOT OF NEED! Please use our tax payer money to actually help our community! Stop criminalizing poverty, stop harassing unhoused people, stop giving LAPD MONEY!

Comments for Public Posting: Hello, I am writing in to demand that city officials support the #cancelrent and the #defundthepolice agendas. What is being asked in both instances is that you take people's lives into consideration rather than their money. I know we as a society value money and the making of it in this capitalistic structure however, in a time where so many are struggling, I believe there is a way to truly aid those most in need. I want to believe that the city officials were elected because they wanted to be able to help make change for its constituents and well, we are telling you loud and clear today and everyday what changes we want. Please think of those most compromised as you make this decision. Please think of the children who won't be able to fully focus on learning and their childhood if they are constantly around stressed over worked parents who are doing everything they can to keep a roof over their child's head. Please think of the over worked parents who are constantly fearing what will happen to their children in this dangerously oppressive world. Please think of those who are too compromised to be able to leave their homes to work to make their rent on time. Please think of how YOU'D FEEL if you were in those situations and what you would want done about it. You can't keep waiting to serve. You can't keep waiting to do your job and listen to the needs we are begging of you. I know I toss and turn in bed each night confused how I'm living in a world where some can afford beds and other can't. Shelter is a basic need and so with the little power and money I have I wrote in and will continue to write in to ask of you please that you use the power, platform, and resources you have access to to help!
