Comments for Public Posting: Hello, I am a new resident of south central los angeles but have grew up near the area and have witnessed it's development over the last 20 years. I am disgusted by what I see taking place in my district. There are too many homeless encampments to count. In my 20 years visiting south central los angeles and now as a resident I wonder where our tax money is going. How have the amount of homeless grown so much and yet city officials and police are still getting paid very well. Where is our money going and why is south central los angeles still facing the burdens of this city's corrupt and heartless council members that have done nothing to help. Building one or two housing units will not suffice. Children witness this every day from their homes. As a mental health clinician I am disturbed by the lack of care given to the residents of south central los angeles. I am worried that this will lead to irreversible trauma in the children of this community. You are fixing streets and providing funding to the wrong projects. Human beings should be priority. The way this city has handled homelessness is disgusting, disturbing and truthfully I doubt anyone has done anything in the last twenty years to minimize the amount of homeless there are living in our streets. Our neighbors, the homeless, deserve more and you council members have not done your job. I will unite with my neighbors to bring a voice to the homeless and to encourage you all to do the job we are paying you for. Best, Leticia
