**Comments for Public Posting:** I support Lincoln Apartments because the project responds to the continuing and escalating housing crisis by providing much needed affordable housing and associated services to serve young adults experiencing homelessness and those experiencing chronic homelessness. I respectfully request that the commission rejects the appeal and upholds the original unanimous approval.

**Comments for Public Posting:** •My name is Kaylin Dickerson and I am a resident of Jefferson Park and senior pm at CDTECH. •CDTECH is part of the UNIDAD coalition which has advocated for local hiring requirements in south LA for several years. •We support this initiative to ensure economic opportunity and access to the residents of a redeveloping South LA. •This is a critical investment in LA because making jobs accessible to residents of notoriously job poor communities creates opportunity for families, particularly families of color, to live and thrive in this city. •We recommend two things for the success of this initiative: one, funding provisions for training and other supports, which is critical for retention of local residents in these positions. •We also recommend that you commission a team to monitor its implementation and outcomes.
