Comments for Public Posting: On October 1st my landlord at 827 E 76th PL changed the lock to the front door. I lost my job due to Covid in July and was only able to pay August rent with money I saved . I missed September rent and informed my landlord but she didn't care. I knocked on the front door for hours called her and was left outside for hours . Cops didn't help never showed up and the next day i was told my things are outside on the front lawn I moved into the property Thinking that it was transitional housing from what the ad presented . I was leaving an abusive partner and had lost a child due to miscarriage right before moving into the property in March of 2020. The stress of the pandemic and trauma i experienced culminated into me feeling depressed and after being illegally evicted the stress of displacement and being thrown out into the streets has left me sick and tired . I'm an tired of being sick and tired and what happened to me should never happen to anyone . The city has the power to protect its residents and should do so now ! Vote yes to protecting people & families !

Comments for Public Posting: Do not build luxury high rise in K town and drive out the people!
Protect small businesses and community from gentrification .
Thank you

Comments for Public Posting: Having special enforcement zone clean up areas has made a HUGE difference in our otherwise blighted from homeless streets. If the homeless are continued to be allowed to stay on the streets and sidewalks, with no enforcement of the amount of their "belongings", there is no reason why the rest of us homeowners who worked very hard to get into our homes, have to be brought down to the level of a homeless person...i.e., live with all their belongings, sprawl, filth and trash. Its not like the police or city are taking steps to contain their belongings AT ALL. There is nothing but trash and filth all around any encampments. Covid has made it tenfold worse, with absolutely no enforcement. We desperately need these cleanups in lieu of any other non-existent enforcement to keep belongings and trash to a minimum. Our entire neighborhood looks like skid row now because of the overly saturated amount of homeless. Thank you all for letting it get like this! If you take away the special enforcement zone clean ups, we will be no better than skid row. The State, City, Govt has let this go for so long, it is beyond any kind of help, no matter how much free housing you provide. At least do not take away the clean ups. It is the only thing making us a bit apart from looking like we live in an encampment ourselves. They should aspire to live like responsible people...not us having to stoop to living like them. Sorry, harsh...but true. You keep giving out everything and allowing everything, there is no incentive to better themselves. They don't even want the help when it's offered! Our once beautiful San Fernando Valley is a nightmare. You should all be ashamed it got like this. Time to get some cahones and start making homeless take care of their own mess....clean up their own mess ..hand them a broom. ...BEFORE you provide with them free housing. "Free" to them. Costly to the rest us. They might just feel some pride in knowing they cleaned up their area...instead of just tossing their trash out in the street knowing it will be cleaned up by others. this is not about a simple tent on the streets...it's about all the sprawl and trash they make with none of them making any effort to clean it up! If you are not going to make them clean up their own mess, then PLEASE DO NOT STOP THE SPECIAL ENFORCEMENT ZONE CLEAN UPS!!!

Comments for Public Posting: Unfortunately, the majority of people do not have an advocate to lobby for our protection and quality of life. Do not stop the clean-up of our neighborhoods. The trash and remnants of homeless is an uphill battle. Just paid my property taxes and wonder if I am be represented.

Comments for Public Posting: It is extremely important that neighborhoods keep the enforced clean up zones. Having these regular enforced zone clean ups has given us hope we may...eventually...see our once decent neighborhoods return to a clean, safe environment...free of homeless, trash and all the blight they bring. The council needs to spend time on enforcing the amount of items homeless are allowed to keep with them on the streets. THAT is the main problem. Taxpaying homeowners did not buy their homes to live in squalor. They pay taxes for a reason and expect something for that tax - to live in peace, quality of life and safety in their own homes. That has all been taken away with what appears to be taking our rights away for a good quality of life, to give all those rights to the homeless to abuse. I would think that if you ask the community what the main problem is with having homeless in our neighborhoods, is their "belongings" .. trash and filth and all the sprawl and squalor they bring. If it was enforced that they be allowed to remain on the street without impacting the neighborhood with having to have clean ups in the first place is something to think about. Please do not take away these regular clean ups. It is the first time in years that our neighborhood has seen those enforced zones cleaned up...after many many requests to do so...that were ignored. It makes a huge difference. Please keep the clean ups.
