Comments for Public Posting: I have been kicked off the call / mtg twice this morning as I wait in cue to speak. What the hell is going on? I oppose the hotel- what are you doing to help prevent the spread of Covid 19? This project is a infectious spreader - no plans to make the project smaller or with less units spread out- to keep affordable units - for working people within the 3 miles radius!!! What's even more insulting is your farce of offering Environmental Justice - ? Are you taking to Elders from the Neighborhoods? Talk to working people? Essential workers? This committee is responsible to the public - not developers and investors. PLUM has the duty to shift with the current challenges of economic failings, the pandemic and to resist to approve projects that yield a profit while placing people in jeopardy of further limiting our quality of life. This project blocks the breeze off the ocean and our natural sunlight... let's fight against GREED and get back to humanity!!! Where is your integrity? You have a home for the holidays - and dining with family - a nice warm holiday meal....

Comments for Public Posting: The time to cancel rent, cancel mortgages and cancel debt is now! We can't keep bailing out corporations while our communities are thrown out into the streets and dying from covid and housing insecurity. Take action

Comments for Public Posting: Tiny Shelters I would suggest investigating the use of fifth wheel trailers (new or used) to significantly reduce the cost of providing a living space for the homeless. A wide variety of floor plans are available to accommodate single, couples or a small family. Logistics for waste removal would need to be investigated.
