Comments for Public Posting: I have lived in Los Angeles since 2020 at the start of the pandemic. I have seen this city go through so many changes in such a short period of time. I have been a healthcare provider for almost 15 years and worked all over the globe. Currently our tax dollars are going towards funding a genocide, the Israeli-American genocide of the Palestinian people. Many of the IDF soldiers have lived/ currently live right here in los angeles and continue to travel freely to Israel without regard to the destruction of the Palestinian life and land. We continue to fund and promote this senseless war which is responsible for the slaughter of thousands of innocent children, women and men. Children as young as 18months have been shot and killed by snipers for walking. We refer to Hamas to justify our actions for fear of another 9/11. But this is not an attack on Hamas. This is an attack on an entire nation of people, most of whom never voted for nor support Hamas. As a white American nurse I traveled to Palestine/ Gaza back in 2013 and there is so much I cannot unsee from that trip and today is only an escalation of that. We as a nation continue to support a terrorist Netanyahu and welcome him with open arms. He and his soldiers should be arrested for war crimes. IF they killed an angeleno would they be able to live freely in our city? But if they kill innocent palestinians why are they able to benefit from American life. I am tired of seeing bodies of dead children and remaining silent. Our council members must bring forth opposition to this genocide openly and publicly with steps to ensure that we are moving towards fighting towards this injustice.
