**Comments for Public Posting:** I would like say thank you for allowing me to leave my comment with you. To start, I am a provider of transportation to tourists that visit the city of Los Angeles. I give passengers rides to LAX, the Hollywood sign, the stars down Hollywood and more. I have met many people who live in various countries. I'm always fascinated with their stories of their countries and their way of life. I ask them plenty of questions and feel like I've traveled to were they have traveled from. I have a wage that I earn that is minimum. I have to make ends meet. I have a wife and I want the world for her. I would appreciate greatly if the city would pass the tourism wage increase for the many drivers that show up to work daily. We face the weather, the traffic and many obstacles to ensure that the visitors arrive at their destinations. We have been there silently in the times of our hardships of Eaton and Malibu. Many drivers may share my sentiments and encourage the city to think of us when a wage increase is brought up. I just want to say thank you again for allowing me to give you my thoughts.

**Comments for Public Posting:** Pause acid maintenance and restore public oversight. Even asking for this seems ridiculous knowing the health hazards of these dangerous chemicals. I would personally like to know who pressured what court to get rid of them, when and why?
