Council File No: 00-9999

Comments for Public Posting: Complaint and policy inquiry regarding limited public comments on Councilmember Curren D. Price Jr.'s official Instagram account (@currendpricejr) I am submitting a complaint and policy inquiry regarding restricted public commenting on what appears to be an official City communication channel operated by Councilmember Curren D. Price, Jr. (Council District 9). Account at issue Instagram handle: @currendpricejr Profile URL: <https://www.instagram.com/currendpricejr/?hl=en> Bio displayed: "Official account of Los Angeles City Councilmember, 9th District." Incident On August 13, 2025 at approximately 9:00 PM, I attempted to comment on a post on this account. Instagram displayed: "Comments on this post have been limited." I have screenshots of the bio and the limitation notice. Requested actions Confirm whether City policy permits a Council office to limit or disable public comments on official social media accounts, generally or on a per?post basis. If policy allows restrictions only under viewpoint?neutral criteria, please review this instance and direct remedial action if appropriate, including re?enabling public commenting and publishing a written, viewpoint?neutral moderation policy for the account. If the City Clerk is not the proper recipient to resolve the policy question, please route this complaint to the appropriate department and copy me on the referral. Potentially relevant offices include the Information Technology Agency, the City Attorney, the Council President's Office, the Ethics Commission, and Council District 9. Please acknowledge receipt and provide a reference or case number. Preservation notice Please preserve records related to moderation for @currendpricejr, including comment settings for the cited post, blocked or restricted user lists, hidden?word filters, auto?moderation rules, and any communications about limiting or disabling comments.
