**Comments for Public Posting:** As i drove by Harvard Westlake last week- i sat their in traffic taking in their football field- Olympic pool- the gym.. and felt utter disgust that the they feel the need to take away a historic 70 year old golf and added tennis facility, with beautiful trees and greener. Weddington services the health and happiness of thousands of people from all over Los Angeles and the valley - they would destroy this just to put in another pool, football field etc... for a relatively small amount of students. What a snub to our community!! Don't allow this to happen. We don't care about their HW's BS about walkways etc... no one losing this important facility gives a hoot about their babble. They are self centered - they can purchase property elsewhere. How about developing a world class tennis and golf facility for their students and the community! Golf and tennis are two very popular pro and non-pro sports. Do something good- taking over this property- mowing down trees and greenery is like thumbing their nose at the community; "We are doing this because we can". That's the message Harvard Westlake sends. Trees-plants- grass that is taken away NEVER comes back!! Don't let them pave paradise... please.
