**Comments for Public Posting:** I propose a joint venture between the city and private (i.e. I.A.T.S.E. Local 33 among others) interests, creating a self-funding partnership that gives back to the community, generates positive voter recognition, funds itself, creates jobs, provides a source of exercise, and social interaction. While observing Covid-19. restrictions, of course. I am speaking of opening a Roller Skating rink in the city of Los Angeles. If the city could provide a vacant property (preferably a warehouse, as that would be easier to convert to a Skating rink) 30,000 sq.ft. or more with sufficient parking, that would be ideal. I am a resident in Harris-Dawson's district. Please feel free to contact me directly for further background information. Thank you.

**Comments for Public Posting:** It was you idiots(left out a more descriptive term) who caused the trash debacle by allowing a 200 percent increase by monopolistic trash haulers then by allowing the trash haulers to add another inflation charge. You are completely crazy. It is hopeless with the L.A. city council and mayor to be on the same socialist(Marxist) team.

**Comments for Public Posting:** Need more resources for sanitation services on Rvs periodically, there should be a motion on encampments measurements of belongings, need high traffic trash cans emptied periodically
