Comments for Public Posting: Please keep outdoor dining! There are people alone on Thanksgiving with no family and they need to be able to go somewhere! These employees will lose their jobs right before Christmas! Come on man! You let the airlines fly with Thousands of people on the flights with no social distancing! You are killing small businesses by the minute! What are you going to do if we all shut down? Where will you get sales tax revenue if we all shut down?

Comments for Public Posting: Dear Council Men & Women- How are you going to allow us to go into another stay at home order and not relax any parking violations? You realize when nobody leaves their homes our parking is completely full. Then add the street cleaning days... where do you expect us to go? I have already received two tickets due to this issue. Parking violations must be suspended again. This is not only unjust, it is antithetical to "staying at home." I literally have to LEAVE my house during street cleaning hours if I don't get a spot. The LA DOT has always been a leech, a complete scam used to extract funds from the people, when the street sweeping was suspended, I didn't even notice a change! One wonders if the big vans kicking up dust are cleaning at all (They aren't). How about we completely abolish this current system and put into place something more friendly to the residents. Cut the private ties that steal all of the funds. How much does the city even take from each astronomically high \$73 citation? I would like mine and everyone else who received "street cleaning" citations dismissed and further citations suspended.

Comments for Public Posting: Hello my name is Andrea Rojas and I am a constituent of council district 8. I am writing in regard to agenda items #4 and #5. I support this motion and this effort to find a solution to this problem. I also want to recommend that the Neighborhood Stabilization Overlay Zone extends to the area known as the USC Nexus Study area and we encourage a prioritization of housing at 60% AMI for housing serving council district 8. Additionally, please push for an Interim Control Ordinance for the next 12 months on any demolition of LA RSO Housing, and a pause on any entitlements of housing aimed for students in the NSO area, companies like Tripalink have been demolishing none stop and destroying the aesthetic of the neighborhood. Developers like Tripalink have been pushing long time South Los Angeles residents out of this area and are contributing to the erasure of the Black and Brown working class and immigrant community, as well as the ever-growing housing crisis. Lastly, please report back in 60 days, as the issue is urgent. Thank you.
