Comments for Public Posting: North Valley Caring Services is a grassroots organization that provides essential services to families in San Fernando Valley. These services include the single largest food distribution sight as well as Breakfast/Shower program for the homeless. We also have Safe Parking program for unhoused vehicle dwellers as well as an emergency kids classroom for children that are unhoused and that would otherwise fall through the cracks. We feed homeless families placed in motels and we also have a Workforce Development program for mothers of our community. We have done all of this work on a "shoe string budget" thanks in large to City Council Members President Martinez and Council Member Monica Rodriguez. We try to imagine what it would be like to function with proper funding and more importantly imagine all of the families that we can assist. Thank you all for your leadership!

Comments for Public Posting: Agenda Item- 34 I'd like to urge the City Council to override Mayor Garcetti's veto. As he named in a recent L.A. Times article "the reprogrammed money should focus more heavily on racial justice, income inequality, and community safety programs." Councilmember Curren Price's efforts to invest in universal basic income, homeless prevention, youth employment, and reentry programs addressed precisely that! These are the REAL needs of our community and particularly the needs of our people of color to address years of neglect and a long lasting legacy of poverty. Our goals are one in the same, but our investment in supportive social programs to uplift the community and boost self worth are critical to changing the long standing narrative of racial injustice, income inequality, and community safety challenges... let's put our money where our mouth is! Thank you for your time.

Comments for Public Posting: When do most members return calls to their constituents? Why are we placing sound barriers on freeways and not around residential projects?

Comments for Public Posting: My comment is for Item #34, general comment My name is DANAE TAPIA and I'm a community organizer with CDTECH-Community Development Technologies. I support the overriding of the mayors veto. The community is speaking, lots of great things have been said. I will add..... LAPD is the most murderous police department in the country. So why invest in that? Its essential that this money get redirected into the community. District 9 is one of the hardest hit communities from COVD19. Its ridiculous that the mayor would veto this and disregard the lives of Black and Brown residents But cater to the millionaires who are part of the LA Olympic Commission. His priorities are shown here. The mayor has the ability to show if Black Lives Matter to him or not.
