Comments for Public Posting: I am opposed to the 42 unit small lot project at 2720 N Eastern Avenue. This project will not provide housing that is affordable to El Sereno residents, instead it will cause housing prices to rise further causing further gentrification in my neighborhood. We do not need more luxury housing. This project will increase traffic and bring pollution to my neighborhood. It will take more than 11,000 dump truck trips to remove the hilltop for this project. With climate change we cannot afford to lose more mature trees. Trees in CD 14 are being removed at an alarming rate. Replacing mature trees with young trees will not provide the benefit that these mature trees provide. Many of these young trees will die. This type of project will increase the heat island effect in our community. These small lot projects discriminate against the elderly and disabled in that most of the kitchens in these projects are on the second floor. I did not receive notice of the May 2020 hearing or the February 2021 hearing. Climate change and affordable housing should be priorities for Los Angeles right now, as we are already harshly facing the consequences of decisions that don't prioritize the wellbeing of our earth and our community. Mature trees are crucial to our ecosystem and cannot be replaced overnight. I urge you to reconsider and prioritize your residents over money.

Comments for Public Posting: I have compassion for people on the street but pitching a tent on the sidewalk or other public property is unacceptable and doesn't benefit anyone. What they need are services (rehab and psych) because many have substance abuse issues and/or mental illness which won't be helped by simply putting them in temporary housing. It's in humane to allow them to suffer and die on the streets and it destroys the quality of life for all who live here.

Comments for Public Posting: This is being done in other cities like glendale Shame on you our elected officials for just treating this with words and no action. We are living in a unsafe environment and this needs to be fixed not just addressed.

Comments for Public Posting: Alexandria Ballrooms is part of Alexandria Hotel located at corner 5th Street and Spring St. We have events every now and then. Having homeless people living along sidewalk will affect our business and the safety of the residents, our clients and their guests. Housing are provided for the homeless. They should be more encouraged to join the program and avail medical treatment as well. I vote YES on PROHIBIT SIDEWALK CAMPING.
