Comments for Public Posting: Quite frankly, ALL city council members from this city deserve to get recalled for their inability to see the consequences of a poorly written moratorium and the lack of support once written. Your actions have kept multiple home owners homeless! Some of these homeless homeowners have families with small children or are disabled veterans suffering from combat related disabilities. My family and I are advocating for a carve out for owner occupy in the City of LA under its Eviction Moratorium. This is to allow homeless homeowners, like myself (my disabled veteran husband suffering from PTSD with multiple suicidal crises and my toddler) who have been unable to live in their own home since March 2020, to be able to recover and reside in our homes. Write a draft! Do a carve out for owner occupy!

Comments for Public Posting: 17 MILLION GALLONS of RAW SEWAGE! And more daily!
This MUST stop. Take immediate action to a) notify people of the unhealthy, contaminated water, b) stop the ongoing discharges of partially treated sewage and c) implement preventative measures so this never happens again.

Comments for Public Posting: It should have been told to the callers that they had to click on the 3 dots to the side of the "agenda" on the regular meeting link in order to see the special meeting agenda. This should be made clear on the website and also mentioned live during the meeting. It was not handled well by the chairperson to not understand what the people were saying when they couldn't see it. I thought the same thing until I realized you could open the 3 dots.

Comments for Public Posting: An Appeal from Goodland Ave/Drive Residents The area behind 3690 & 3693 Goodland Ave is part of a the Santa Monica Mountains Rim of the Valley Corridor. It is located on a hillside. The amount of cubic feet that is proposed to be removed does not seem safe for our hillside and community. The are has NO SIDEWALKS. Garbage trucks can barely get through our street when more than one car is parked on opposite sides. I am not sure how 3,600 CY can be safely removed without talking out a hillside or a kid on a bike. A biological report was not done on this parcel. This proposed project is too big in scale to be approved. The residents of Goodland Ave. ask that this vote be delayed and put on a special to allow for a proper biological report to be performed . We want Councilman Krekorian to speak up and stop the vote from going forward as a "special" for further review. We are concerned for the safety of our no sidewalk street and the hillside falling on us. The committee should be as well. Respectfully, Michelle Allen 3620 Goodland Drive

Comments for Public Posting: I'm writing in support of giving this new Hyatt House Hotel the opportunity to succeed in our community. They Hyatt House Hotel and the USC Conference Center can provide our community new amenities and meeting spaces that we often travel outside our neighborhoods, into other cities or Downtown Los Angeles, to access.
