**Comments for Public Posting:** Attn: Public Works and Gang Reduction Committee PROJECT: California Environmental Quality Act Appeal of a Tree Removal Permit issued for 11472 West Laurelcrest Drive (BPW-2019-0508) Dear Ms. Keyonna Kidd, I find it incredibly disturbing that a natural woodland like that at 11472 W. Laurelcrest Dr. could ever be considered for destruction, and that Los Angeles's current insatiable appetite for development could lead the council to even consider such a move. We NEED woodlands -- for biodiversity, for clean air, for the migratory birds and wildlife -- and for the quality of life for all, humans and animals alike. These natural, unsullied pockets of natural forests are a great GIFT to our communities, and not something to be brushed off in the name of yet more development, and they are rapidly dwindling. We must spare yet another natural woodland from being bulldozed. This must not happen! Please, I implore you to accept the CEQAA appeal of the Sunshine Hill Residents Association. Thank you in advance for treating this issue with the seriousness it deserves. Susan Winsberg 6536 Franklin Ave., #1 Los Angeles, CA 90028
