Comments for Public Posting: Soon, many of the homeless near Saticoy and the 170 Freeway, will have available transitional residences in the Tiny Homes that are scheduled to be built. Those people who will be struggling to turn their lives around, also have rights which include a clean, neighborhood, where efforts are made to keep streets and sidewalks clean and free of crime. The continued scheduled clean-ups that remove, dirt, feces, used needles, and condoms will help to maintain that environment and discourage illegal activity. The goal for everyone is to insure a successfull outcome for the program to help the homeless, and continuous street clean-up have proven to be effective to that end.

Comments for Public Posting: I'm writing to oppose the shutdowns of outdoor dining in Los Angeles county. It is imperative to small business owners that they stay open and keep their businesses alive. What has been done to small business owners and the economy has been horrific, unacceptable and unconstitutional.
