Comments for Public Posting: Hi my name is Angel, ACCE Member, I live in District 8 I will speak on general comment and Item number 6. 20-1265 CD 8 I'm a victim of displacement by companies like TRIPALINK (tell your story of displacement) - I am a resident of district 8 - Demolitions are happening very quickly in my neighborhood and are changing the entire neighborhood - These demolitions are replacing housing that was affordable to the community with unaffordable housing that is meant only for USC students. - We need the committee and city council to act immediately to add replacement protections when affordable housing is demolished, to prevent the loss of the affordable housing. We can't wait the 12 months in this plan because even more affordable housing in our neighborhood will be demolished by then. - We need City Planning to bring a replacement unit ordinance back to this committee in 30 days. - [If you have neighbors who were displaced as tenants or who were pressured to sell to Tripalink, share what happened] - [If there were multiple demolitions on your block, share how many happened in the past two years] - I am asking the committee to amend the work plan to have City Planning bring a replacement unit ordinance to this committee in 30 Days

Comments for Public Posting: I think it's very nice that people are giving out incentives for people receiving the vaccine but I also think it's very unfair for those of us who have received the vaccine and didn't have to be pushed to get one we went ahead and got one without no problems that's not fair we should also get something don't we don't we deserve something I mean that's not fair what about us what about people that got the vaccine before Time we're entitled something too I don't think it's fair at all
