**Comments for Public Posting:** Wilson ST from Olympic to 14 TH St and 14 ST east of Wilson to Santa Clara ST and west of Wilson to Lawrence St has been inundated with homeless and all the trash and raw sewage which is being dumped in the storm drains constantly for over three years. People climb up the power poles and steal electricity ,connect hoses to the fire hydrant and let water run all the time. I have requested no parking over night signs be installed but this has not happened. I have been in Business in Los Angeles since 1963 , I own three buildings in Los Angeles two of which have been vacant a total of two years I have had to reduce the rental and am very thankful to have them leased now but this homeless problem is causing untold hardship's. Two of my tenants are wholesale produce distributors storing fresh produce of which I will assume many of the people who might read this are consuming. I know this is a ver bad situation BUT WE need some resolution PLEASE HELP. Thank You Bob Lipkin 818-266-3592
