Comments for Public Posting: This is my comment for 2/12/2025. For Items 14 and 15, maybe we should focus on getting the city rebuilt before we put more stars on the Hollywood Walk of Fame. For Item 17, hopefully these services involve getting unhoused people the housing and assistance they need and hopefully they do not involve sweeps. Item 19 is a common sense motion to ensure that helping people affected by the fires won't result in evictions. This motion should be non controversial as people have been forced to evacuate and shelter space is limited. It's going to take a while to rebuild people's houses, especially since the recovery effort led by sexual predator Casey Wasserman and former Police Commissioner Steve Soboroff focuses on the LA 2028 Olympics starring the fascist POTUS Donald Trump himself rather than on rebuilding communities that have been destroyed by the fires. Please resist any and all pressure by landlords to reject Item 19. Call-in comment needs to be restored. Especially on days like today when it is pouring rain outside, getting to City Hall on a weekday morning and having to devote the better part of a day to dealing with an extremely unsafe feeling environment surrounded by cops who are literal fascists and violent creeps all to speak for maybe 4 minutes is really difficult

Comments for Public Posting: I strongly support zero emissions standards for commercial furnaces and water heaters. We transitioned to a heat pump water heater and it works just as well as our gas one. LA has some of the worst air quality in the country and wildfires are making things worse. Let's make a move in the right direction with things we can control like building emissions.

Comments for Public Posting: This is my public comment for 2/14/2025. For Item 12, you should try listening to the Neighborhood Councilmembers who are exposing your corruption. You should hold hearings on the budget before the budget for next year is passed, instead of in mid-June. You should listen to the results of the People's Budget LA survey as you discuss next year's budget. For Item 13, please help the residents of LA who are effected by the fires. Please do not give in to the pressure from landlords. They will be fine. This is a common sense measure that will keep people in their houses as people rebuild after these devastating fires. This should not be controversial and this should pass unanimously. Please help the Tenants. For General Comment, please restore call-in comment. This week's rainstorms further highlighted why it is often a struggle to attend an in person meeting in Downtown at 10 AM on a weekday and there needs to be more options to address the Council
