Comments for Public Posting: Good morning, thank you for the opportunity to have my concerns heard. My name is Eleanor Collins, I am a member of Community Coalition, I live in South Central/ Watts. We need the funds in our communities for stop signs, programs for all age groups, first time low income home owner's programs. I went to Sacramento this past weekend for the "Housing is a human right" rally, and everything out there was clean, the stores were well stocked, we need those things in our communities also. We are demanding results. Thank you
