Comments for Public Posting: To Whom It May Concern, I am writing to bring to your attention a significant issue that many parents are facing at Grand View Elementary School, particularly on the first day of school. The situation this morning was especially challenging due to a combination of a small parking lot, nearby construction, and street cleaning schedules. **Parking Situation:** The school's parking lot is very small and cannot accommodate the number of parents who need to drop off their children and walk them into their classrooms. This issue is compounded by the construction occurring right next door, which has further limited parking availability. **Street Cleaning:** The majority of the streets surrounding the school have street cleaning scheduled on Thursdays from 8:00 AM to 10:00 AM. This leaves parents with very limited options for parking during crucial drop-off times, such as the first day of a new school year. **Personal Experience:** This morning, I had to drop off my two children, ages 5 and 6. My younger child was particularly emotional and clung to me, making it necessary for me to walk them all the way into their new classrooms. This is an experience many parents can relate to, especially when children are going through new and emotional transitions. **Request for Action: City of Los Angeles:** o Please assess the parking and street cleaning schedules around school zones. o Advise on how parents can engage with community officials to discuss potential changes to street cleaning times or find alternative solutions. o Provide grace or temporary parking exemptions for parents on the first day of school to help ease the transition for families. Thank you for your attention to this matter. We believe that by working together, we can find a solution that ensures the safety and well-being of our children during these crucial transition periods.
