Comments for Public Posting: I would love to know and meet the person or person's that is allowing all the developers who I'm absolutely positive do not live in the community of Manchester and Vermont to build all of those institutional looking three bedrooms and up apartment buildings and not save any space for parking, People are already double parking overnight, Every square inch is taken for apartment units,no front or back yards just a square block with a couple small windows,in five years this place is going to be nothing but another set of projects to keep people of color in ,but it's also the lack of care for the future of this and other,what used to be some what of a residential situation now it just ugly giant prison colored buildings with two or three small windows, I'm out of hear and the next time I see one of my people yelling unity that is a government official I'm going straight to the media and expose all the photos I've taken of these mini prisons
