**Council File No:** 00-9999

**Comments for Public Posting:** This is for Councilwoman Jurado. Dear Ms. Jurado, I have personally left you 3 messages and several emails since you've been elected. I've never even received a response from one of your staff. Say waht you will about Kevin DeLeon, they alwyas got back to us up here at Bunker Hill. We are part of your Bunker Hill constituents. We are the residents that have been here for 20 years, many here own muliple properties, many voted for you. Yes, all your 'care and love' goes towards Boyle Heights and other areas. Since 2020, we have consistently complained about a 1st street birdg near the 880 Bldg that wreaks havoc with noise and broken steel plates. It IS a danger. We've complained about meth about explosions UNDER this bridge and the homeless encampment that ALSO sells meth under the bridge before Beaudry. This encampment has blocked the sidewalks near the Roybal school for years. How is that allowed? I see the kids walking in the street daily. Our city is more and more becoming destroyed. And I've been here since 1998, it's tragic to see. I would be present for this public comment and I will come back, but I have been very sick. One reason for the noise that is 24-7 due to this brdige. It interupts all of our lives, sleep, and even pets get anxiety from the 24-7 noise. It's a shame. Please please give your Bunker Hill residents the same respect and care that you show the other areas. Thank you, Christine Smith
