

Light Pollution and Trash on our street with new Developer Building

To: Clerk.CPS@lacity.org

I and other neighbors living on 10th Avenue between 36th and Exposition have suffered greatly while at the hands of the developer Marc Luzzatto. He and KPRS, developed a huge building now labeled 3609 10th Avenue.

They just finished construction and have finished the electrical this week. We want to complain about the lighting. The lighting is extremely bright and shines into some bedrooms and we cannot even sit on the porch or open the window blinds.

We asked them if they will always be on and they said yes, that they will be ON ALL NIGHT. KPRS and Marc Luzzatto have ignored us for 2 years, asking them questions. Obviously this building was approved by the city without knowing what the final result, human element impacted would be.

We would like to find out how to get in touch with the city council, and demand an enforced time the lights should go out and demand that they be turned down to a lower wattage. The developers and owners do not want to talk with us--we are only the lowly neighbors. But this would never happen in Beverly Hills. This building looks industrial and the lights do too. No one cares about us--the people that actually live here.

Please, what can we do?

Thank you,

Peggie Bennett and other neighbors on 3600 - 3640 block of 10th Avenue.
