

unfortunately the los angeles government is corrupt and they made me homeless. I've tried to get help from LAHSA but its impossible to apply to their homeless prevention program.

1. lahsa never picks up the phone

2. lahsa never returns voicemails (i've left a voicemail over 2 months ago, and another one 1 month ago)

3. lahsa never responds to emails (been waiting for a response for over 2 months)

4. lahsa's grievance website doesn't work (for over 2 months) - see error below

<https://www.lahsa.org/support/contact-us?t=2-grievances>

5. due to the above then the only thing left to do is to apply in person. on 3-25-2025 i went to lahsa at 707 Wilshire Blvd, 10th Floor, Los Angeles, CA 90017 and the security guard said i had to have an appointment. why? lahsa is supposed to help prevent people from becoming homeless. the security guard tried calling them and lahsa never picked up the phone.

6. as you know the los angeles government is trying to get rid of lahsa and replace it with an equivalent corrupt organization. this will be useless as los angeles is 60% illiterate. you will never solve homelessness if the employees are illiterate.

7. each board of supervisors annual salary is \$244,000

8. los angeles mayor salary is \$300,000

9. los angeles government employees will also get a raise when homeless increases. the los angeles government wants homeless to increase so they can lie and pretend they have a way to fix it and get voted again. the only reason the los angeles got rid of lahsa was to guarantee their next paycheck. los angeles couldn't stop homelessness when we had 100 homeless, its now 90,000 homeless. the only person that would believe somebody like that is if they were illiterate.

8. lahsa is getting alot of funding. they are stealing that money and just giving themselves raises. they do not distribute the money to the poor people to prevent them from becoming homeless. I'm proof of that as I'm going to be homeless.

9. lahsa is corrupt, but so is the los angeles government

it was a waste of time to write this,  
my name is 90,001

☹️ HMM...
