Dear Los Angeles City Officials,

The partnership between our city and SoCalGas should prioritize the needs of our community over Sempra's LNG export initiatives. The authority we grant them is not a given right but a privilege that comes with responsibilities, especially concerning financial and environmental impacts.

With the volatility in LNG markets, the expansion plans risk leaving us with outdated infrastructure costs that burden our residents. I appeal to you to enforce stricter conditions on these franchises, examine SoCalGas' involvement in Sempra's projects, and support the creation of sustainable, union-backed jobs that thrive in an eco-friendly economy.

Best regards,

Annett Preissler
