Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread

unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

A concerned citizen

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Sharon Peerless

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA’s commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.

Thank you for your immediate attention to this matter.

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Terry Davies.

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups

are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
M. Breslin

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another

educational union. It urges “civil disobedience” for a May Day 2025 strike, including storming weapons plants and chanting “From the River to the Sea,” slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a “workers’ rights” issue, but a closer look reveals its true purpose. Like “Pro-Palestinian” advocacy and “human rights,” which are used as the pretext for the university protests, “workers’ rights” are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers’ unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers’ unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas’s barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel’s right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member

on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden

those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Jory Stein

This activity continues to spread unchecked through California's schools and union networks. [1] A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal. This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025). May Day is

a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2] This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024). The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country. Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions. This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself. You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets. This is not a call for censorship but for accountability. Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue. We demand the following immediate action: 1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted. 2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access. 3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence. 4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination. 5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future. Thank you for your immediate attention to this matter. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Rachelle and Ronny Korn

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging

action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Eve Radin

1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Michelle Kravitz, MD

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dina Ganz

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Shoshana Steinhart

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided

narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the

National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Richard Tobias

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Darrell Lepkowsky

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Marina Katsanovich

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive

rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Denny Michael Bartlett

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School), The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1] A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal. This

narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025). May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2] This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024). The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country. Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions. This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself. You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets. This is not a call for censorship but for accountability. Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue. We demand the following immediate action: 1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted. 2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access. 3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence. 4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination. 5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future. Thank you for your immediate attention to this matter. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). 2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Melanie Ringel

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Craig Bruenell

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the

correct buzzwords to frame the event as a “workers’ rights” issue, but a closer look reveals its true purpose. Like “Pro-Palestinian” advocacy and “human rights,” which are used as the pretext for the university protests, “workers’ rights” are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers’ unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers’ unions.

This narrative’s spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas’s barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel’s right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA’s commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

W. Ecker

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel

while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Leah Schwartz

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity

and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Rochelle Bodner

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Serena Peiper

Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Stacey Nissenbaum

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of

this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz,
Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho,
and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such

infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Rebecca De Mornay
(Letter not written but signed in agreement)

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a “workers’ rights” issue, but a closer look reveals its true purpose. Like “Pro-Palestinian” advocacy and “human rights,” which are used as the pretext for the university protests, “workers’ rights” are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers’ unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers’ unions.

This narrative’s spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas’s barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel’s right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA’s commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Beth Kufeld

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We

cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2] This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024). The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country. Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions. This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself. You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets. This is not a call for censorship but for accountability. Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue. We demand the following immediate action: 1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted. 2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access. 3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence. 4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination. 5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future. Thank you for your immediate attention to this matter. Sincerely,
Vikki Bravo

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Marni Brand

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a “workers’ rights” issue, but a closer look reveals its true purpose. Like “Pro-Palestinian” advocacy and “human rights,” which are used as the pretext for the university protests, “workers’ rights” are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers’ unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers’ unions.

This narrative’s spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas’s barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel’s right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA’s commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Elena Riber

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a

nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Beth

2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel

while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

cc: U.S. Representatives Education and Workforce Committee, State House/Assembly of CA, State Senate/Legislature of CA, Office of Civil Rights, Press, Leo Terrell Senior Counsel to the Assistant Attorney General for the Civil Rights Division in the United States Department of Justice, Human Relations Commission, City Council members, Department of Education, U.S. Secretary of Education

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not

optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Dr Margo Woll

This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another

educational union. It urges “civil disobedience” for a May Day 2025 strike, including storming weapons plants and chanting “From the River to the Sea,” slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a “workers’ rights” issue, but a closer look reveals its true purpose. Like “Pro-Palestinian” advocacy and “human rights,” which are used as the pretext for the university protests, “workers’ rights” are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers’ unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers’ unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas’s barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel’s right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA’s commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Elizabeth Goldbaum

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Deborah Stein

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). 1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,
Eta Stahler

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct

targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine,

2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Dear UTLA President Cecily Myart-Cruz, Members of the City Council for Los Angeles, DOE, Superintendent Alberto Carvalho, and Principal Brookens (King/Drew Magnet High School),

The institutions you lead are directly tied to the promotion of extremist, antisemitic, and dangerous rhetoric and conduct targeting California's educators and students in violation of Title VI of the Civil Rights Act. This activity continues to spread unchecked through California's schools and union networks. [1]

A malignant force has coursed its way into our educational unions and schools, poisoning our children with a one-sided narrative that vilifies the Jewish and Israeli people and ignites hatred with a ferocity reminiscent of history's darkest hour. This is not a scholarly disagreement; it is a deliberate campaign, cloaked in moral pretense, that endangers lives and threatens to engulf us all. The parallels to Nazi Germany's propaganda are unmistakable and terrifying, and we stand at a crossroads where inaction is betrayal.

This narrative has infiltrated the United Teachers Los Angeles (UTLA), with over 37,000 members and 1,300 schools, and is exemplified by an email sent by a UTLA member on behalf of the Palestinian Workers to fellow UTLA members, urging action against Israel's alleged "genocide" (Labor for Palestine, 2025) on May Day, scheduled for May 1, 2025. Similarly, an email from the same Palestinian Workers group was sent to the New York State United Teachers (NYSUT), another educational union. It urges "civil disobedience" for a May Day 2025 strike, including storming weapons plants and chanting "From the River to the Sea," slogans critics decry as pro-Hamas propaganda (New York Post, 2025).

May Day is a well-organized and well-funded day with over 1,000 protests and actions against Israel and Jewish identity and America, including our government and institutions. The UTLA email was sent on behalf of Labor for Palestine, the National Students for Justice in Palestine (NSJP), and the U.S. Palestinian Community Network (USPCN). These groups are collaborating with the Council on American-Islamic Relations (CAIR) and Democratic Socialists of America (DSA) – and NOW with CALIFORNIA EDUCATIONAL and WORK UNIONS – in the planning and coordination of this day, with over 1,000 protests/events. California K–12 schools throughout the state, including teachers, students, and staff (e.g., King/Drew Magnet High School, Oakland Unified School District), are fully participating in this national day of hate. [2]

This email highlights the infiltration of antisemitic rhetoric into educational spaces. This is not critique; it is scapegoating, painting Jews as the root of global ills. The consequences are undeniable: antisemitic incidents in the U.S. surged 360% since October 2023, with 8,873 reported in 2024 alone, 43% linked to anti-Israel activism (ADL, 2024).

The May Day organizers are the same groups that have been leading the vitriolic demonstrations on our college campuses and in our streets for the past 19 months. Their social media and websites promoting May Day employ all the correct buzzwords to frame the event as a "workers' rights" issue, but a closer look reveals its true purpose. Like "Pro-Palestinian" advocacy and "human rights," which are used as the pretext for the university protests, "workers' rights" are now being used as the pretext for antisemitism, anti-American hate, and plans to destroy our country.

Our teachers' unions — the largest, most influential unions in the country, responsible for teaching our next generation — are now at the forefront, coordinating with NSJP, CAIR, and DSA: dangerous and antisemitic groups, including some with ties to terrorism. These are the educators shaping our children, from preschool to universities. They are issuing a nationwide call to action from New York to California. The same groups that infiltrated labor unions have embedded into our teachers' unions.

This narrative's spread is a catastrophe in motion, directed by unions like UTLA and NYSUT, which amplify divisive rhetoric through emails and resolutions. These platforms do not foster dialogue; they indoctrinate and incite violence. The last time such vilification went unchecked, it led to the Holocaust, where six million Jewish lives were murdered. We cannot wait for history to repeat itself.

You, who give this narrative a megaphone, are complicit. When unions like UTLA and NYSUT allow boycotts of Israel while ignoring Hamas's barbaric terror, you spread a genocidal agenda and historical inversion (Labor for Palestine, 2025). When educational bodies promote divestment without acknowledging Israel's right to self-defense, you embolden those who see Jews as targets.

This is not a call for censorship but for accountability.

Title VI mandates that you provide an education free from discrimination, harassment, and intimidation. This is not optional. Immediate action is long overdue.

We demand the following immediate action:
1. Public condemnation of the May Day 2025 email, including the extremist and antisemitic ideologies promoted.
2. Launch of a systemwide investigation into how these materials were distributed to UTLA educators — including which individuals were involved and whether internal actors, union representatives, or external partners facilitated this access.
3. Formal clarification and public statement advising whether UTLA or DOE authorized, endorsed, or had knowledge of this communication prior to receipt of this correspondence.
4. Reaffirm UTLA's commitment to Title VI of the Civil Rights Act — ensuring that Jewish students, educators, and families are protected from harassment, ideological coercion, and discrimination.
5. Provide a transparent public update detailing all corrective actions taken and safeguards implemented to prevent such infiltration into educational and union spaces in the future.

Thank you for your immediate attention to this matter.

Sincerely,

Sarita Andrews
