Stones of evil as freedoms end

What is the right word to be used as guidelines or guidestones? The georgia guidestones were erected complete on March 22, 1980, 40 years later everything shutdown. There are 4 stones represents 10 years with 10 ten commandments of satan their devine, each one for 1 year. I came to this knowledge by extragraceful on youtube, and then put it together. I sent this to the sheriff on April 9th 'Can a mayor be Stopped or Overuled? This los angeles mayor is out of control to require masks to suffocate people in their own carbon dioxide increasing the chance of bad lungs!' and nothing became of it. Hydroxychloroquine does work well, but became a political volleyball by mostly demon-rats who don't want the crisis over. The illuminati zionists rothchilds are now handing down their new normal of evil. The vatican and the british crown work together to bring the new world order to its complete, although it looks like Russia is not in the rothchilds web of deceit banking system. The marine vet should be governor or president who said things that was a flashback to people standing up against king george the british crown.

This is a power struggle between good and evil, Trump has taken more to the good side although the son-in-law is more on the evil side, and the satanist child cult of elites on the other side. I didn't take the covid=1984 rex 84 religion seriously when they began shutting down because they hadn't done anything for a month and half, and it was to be temporary opening up soon but didn't happen. In the 1918 spanish flu which could have come from china as the seasonal flu originates from there every year, they didn't shut down businesses, only theaters and churches et cetera. The opening up are steps into the new world order that are written in their stones to guide. The airports have not been shutdown so basically they didn't care for the virus to spread, then to do lockdowns, trample on people's freedoms, and cause a deadly depression.
