To: "pio@ceo.lacounty.gov" <pio@ceo.lacounty.gov>, "CityClerk@lacity.org" <CityClerk@lacity.org>, "Clerk.RMD@lacity.org" <Clerk.RMD@lacity.org>, "Clerk.CPS@lacity.org" <Clerk.CPS@lacity.org>, "riskmanagement@mednet.ucla.edu" <riskmanagement@mednet.ucla.edu>, "Ombudsman@sec.gov" <Ombudsman@sec.gov>, "info@LosAngelesSiliconValleyBBB.org" <info@losangelessiliconvalleybbb.org>, "cathal.conneely@jud.ca.gov" <cathal.conneely@jud.ca.gov>, "counselforjustice@lacba.org" <counselforjustice@lacba.org>

To the other Chief Justice from out of the States issue that it is in reference the Justice Department, we are not in parlay, this will issue all reverence to you that you are Chief Justice to the State of California without my say, that you heard that prior is in your court for offering but are not hearing it here for ourselves as you and as you may want it. There is no other way to do this if there will be no reference to the persons and or the material for it to become available to us as the use of the Justice Department and as the President of the United Nations.

We are in contact for support into the use of courts that a filing by person that was hand written and examined by the SEC and the Better Business Bureau, that it reaches courts is enough and sufficient and for me there is person in it with the power to remove that there is disposition that we are not all at cost, that then there is use of others in the province for it as the use of the CC or the whole mail for it as a list of it that there is a use of their own as their person, they are using it to supply more information that they, and it is clear and legally an issue that they will provide the use of a single email into reaching the proper persons and that they do not they will be held for in the suit of it that they are removed from persons instead of pursued into the risk of it, Judges know what I mean and the rest of you should just grant the information as it is and let the authorities handle the rest, there is no power in me to grant this a person of power and there never will be that we do not condone the use of mafia tactics into this person that their disposition in the use of power that we do not for it provide you as a person and as an individual a title. That there is anything else and anything more I hope you do not find yourself fighting for power against the uses of Judges in the United States issue that there is power in it for the use of the Justice System and that there is anything else in it that they can for it be the persons that dispute there is power away from reality, that there is anything else in it we are not religious and none of that or that you think there is any of that in this, nor will there ever be anything like it to here, there is nothing for it that we cannot suffice the full force of the law to you by the use of our private courts. And that that be the end of it, there is no means in us to dispute that there are persons of power that we can for it ever be in the presence of someone that disgusts or discusses us to other persons that we are not aware of them. Thank you for information and thank you judges for dispensing and providing peace in this person and in others like it. Thank you yet again.

If this email surfaces anywhere and we are aware of it, it will be rendered mafia tactic and you and your families as you may call it may face time in prison and or serve a death sentence to the full extent of your life that you are in law for it that we could not find a simple email because of things like that occurring. Thank you not if this applies to you. If not, thank you for referring yourself a better person than they do that they may not acquire me for the use of email in the City Hall that I must dispose this email to. They will be sued for it. It is only for reference.

I will not be filling out "the proper forms" to any form of purchase that they are in use of this. That this is written there has been hearing for it that there are already persons in the City Hall for its use of juncture that they cannot communicate in "court". There is no dialect to it, you simply must be aware that they asked for something, a clerk does that, and then provide it. It is illegal for you to be aware of CHURCH in a STATE department. Please be yourself in this manner and do not aware of any church as we are not in play at the moment. We have regarded all manner of execution to the persons like Robert Mueller for the use of courts that they are not in the use of it, and that Apple be your savior, we removed Tim Cooks for the same reason you are displaying dispondency. This is not a game. The emails are simply not easy to find and I do not wish to speak to more handlers for this information to escape to more persons that you may know someone that can use the information, and it is ALL CLERK, that some judges "came into some money". PLEASE.

And as for any render that there may be persons more qualified to help us in this endeavour, us is I in the court of my own, I am the President of the United Nations, there is a suit for it that there may be in person that there is a suit for it that you can for it that it is what we do, the sum is around 20 million for the person that is able to confide to us that there is a use of their person for it to arrive as retainer that they are it and then as for it there is a suit in that they can for it also collect on that that they are Supreme Court that issue is only on resounding effort that they may as they are for it, the issue will grant them the suit for it that there is a small sum in court fees of 200,000 Dollars in American Currency and no other kind. This is not for the United Nations, it is out of it, as by me, that there is a person in it, that I am the President of the United Nations you may check and revise with them on my honor and that there is anything more for it you may have been misrepresented in your person and this is not folly to you. Thank you again. Please do not let this get out. I may be making more than you in this and that is not their business. Those mafia types that let you in on the amount inside the file I have attached.

Lenin Marty Chavez

Chief Justice of the United States of America

President of the United Nations

Owner of Microsoft, Macintosh, Apple, Sony and Enron.

There is no suit here that we do not contain is ours and ours only. That there is anything else in the mayhem for it, there is only self-evident person and the responsibility for it and we at the United Nations will pursue in full force and power. There is no other in it for us that we use the Justice Department out of the United Nations. That is all.

 **Avitus Suit and Malpractice by UCLA.txt**
37K

There is a person that in this there is a requirement in them, I am the Chief Justice of the United States of America, my name is Lenin Marty Chavez, and I am aware that I have sent a receipt for its person into the use of my documentation as a person, and that as that person I am removed to the use of the words of law in my book, that I am not aware of it there is no use for it that there need to be any kind of need for its reprisal, there is a personal in it that there is no use for it that there is no need to be in the use of things like wording that are not for the use of this book something that they might, as in may, be in the use of forceful language, we are not forceful at the Justice Department and a call will suffice that there is enough and in sufficient need to a person that there is no real efficacy in the use of what it is a law book may do for a person, there is no need in it that it may be used to them, we are not selling to them and they are claiming that it is being sold to them, there is no use for its person as our own that it can as it will that there is any use of it for its person and that then there is no need for it to occupy to our person that there is a suit in it for a sustainment of its own approval, that we are in court for it we are not, and that that is what we do at the Justice Department for the need of any of its person, we are not using the Pentagon and we are not using the FBI or the CIA, there is no need for reprisal that there is a sufficient need of it for its person, that there is anything that in their own there can be what it is in we as the persons in us, we are not people and we are only one person and the name is yet again Lenin Marty Chavez, the useful of all origin in this contentment that there is what a person may in their own and in their final studies of it as their own book, there is a person in us that it will marginalize the points of what it is we faction to apportionate means in the use of a book that it is not ours for the beginning of another book that is now removed to us, we are not religious, there is no use for it in us that there can be what it is we know there is a person in for it that there is a use of it, and that may and does mean that there is a way to sufficiently and more astoundingly declare that there is a person in it for us that we may use the mail to receive what it is we are point to ourselves is the use of a mail box into our person, that it is safe it is now safe, and that there is no other way for us to deny that there is in this person a way to magnify that the gestures we hold to ourselves as the useful for its own use in this person as we are our own, there is no denying and there is no justifying the use of rape or the use of slavery to outright claim anything in us that it will astound anyone but the sole person that they are in due need of, there is nothing in this page but nothing in the use of all reality that we are by the use of it, that we cannot deny in the use of it that this book is for us in the need of making a claim for the use of one's identity, that the Avitus Inc. in mention by the claim that we have made a mail of receipt to the SEC and the BBB there is in us the ability to make a claim now, to the LA CITY HALL, the LA SUPERIOR COURT, where we are the Chief Commissioner and District Attorney as per the United Nations where we are the President, the useful in its agenda is that we have by that mention already contacted the owner and proprietor of the company in Avitus Inc. and we are by that mention only allowed to continue that we are able to maintain contact with them in the same way that we do for criminals in their suspect, and that what it did is suspect we will not commend them to their person that they are able to suspect themselves and us into the use of criminal we will also not be

commending the use of this device or whatever it is into the use of persons that they are becoming of age, that is for the Pentagon and for Hollywood that they may tinsel (sic?) into their own what it is they seek for and out of it, there is no sir or no majesty in us even if we own the rights to and all of the property of most of Hollywood through owning Disney by way of Microsoft in our ownership as per the mention in it, and thus we will not require their use of us in their person that they may be what it is we use to create what it is they manufacture, that we do not for them ever become what it is we were fouled by in the nature of using the mailbox that we received a letter for its own that we received what it was was a receipt from the IRS declaring and stating that we are in payment a person that received \$4000 in sum the use of our person into their employment and that it was receipt in them that they accepted this work from us and that they then moved that work into the persons of another person that they may commend to us and for us that that person is named anything but Tony Oscar or some reverse of it, Chavez, there is none and nothing but no one to yourself and your own sir that there is nothing in it for us that they may be what it is we to ourselves do know that we are available to it, we do not speak and that we may have lived in the same household, apartment in San Bernardino for any reference of time, there was and always has been the opportunity that we do not reside in the same domicile for its person that we are aware of each other, and that every time he mentions himself in my home in some way there is a lead of him into other things that he may not be aware of is something I do for work into the keeping of them as persons as something away from the Justice Department and its ability to keep and maintain Justice is in the use of, and so for the person in and of themselves that they are us in any way shape or form, and that in capacity that may change, there is also the use of what it is this is form for, and that there may be what it is in court costs and in the form of it fees, we have as our own person in the use of what it is we have courts for, since we work out of the United Nations and in the Justice Department we oversee that the work of the president, the directors and of the persons that they amalgamate all character for, persons like Hillary Rodham Clinton, whom is still alive amongst the told there, there is a person in there that we do not accompany what it is in person for them we seek, we do not refute that you and all others in that building take chair, we do not seem to keep that we are in theirs for the use of their money that they are ours and so I would like to say that as the person that does for them in the United States what it is we do, we keep a fee of 200,000 DOLLARS American in the US for its funding, that we keep a cost of it to us is the person in us and that we can for that nature also astound you to create that in our court, that that is where we held costs to them that we are aware they will not use the sum in us to hold us into it as for the use of their person into the use of the courts that we hold for ourselves and in the use of it to us that there is a private court to it that they may be heard using themselves to confess guilt or not guilt into the use of courts, there is a person in them that they MAY pay 2 BILLION dollars to avoid the use of real courts into their person that they are not available to the cost of TV and other translations that they may for what they are, and that we can collect we can but that they have it is always a question of cost and that there would be a fee for us to "use", and I do imply that we are Judges and we are not to be "used", we will automate that the costs in the court go from us to

it is we are in our person only modifying this court to appoint that someone else with general appearance that there person in them is able to remove someone from them or into their firm that they are in their own useful to a court for it so that we may be mailed a date or a form for us to fill out and sign with our own information, that this has been the problem from the beginning this is what we are doing for the use of it that we are not to be held libel any inaction that for the use of other persons there is inadequate reprisal into action, there is what it is we in us that we do for it, we are in confidence that we can, there is no use in us for the use of the mail system in the USA, that we are in the United Nations there is person in us in the United States but that we have for that the use of the United Nations as in the building IN the USA, we are competently aware that there are not many in this building that the person in us is readily aware of them, as we have attempted to "use" them for something else and the building was condemned for it, there is no use in it that we can continue in for it in that direction and that we can then for its use in us that we are what it is we are supposed to be doing into the use of courts, there is in us the ability to modify that court and its cost to you, the UN has digest for court use and cost by the use of your own honor, that we are the president in resident to some occupancy and other ownership laws that they will reside for, and that is not a joke, the use of all other persons in themselves that they are aware of themselves for the use of real courts, that they are in magnate what it is we approve, that is not true they are not what it is we seek for ourselves in real life, whether that man Tony is alive or dead or not, the issue is that we are not here to embellish that the courts here have power, we are here simply to arrive at the court to offer that we know there is a suit for us out there in their residence and that when we have knowledge of them being able to ascertain that the fault is theirs, and that they contemplate to pay anyone else but us, their fault is doubled, and it has doubled since, to 8 MILLION dollars, the use of them that they couldn't for its use then contradict what in it was us in the use of the courts we use for it in our own, they are not able to produce to themselves that they are using what they know they are using court costs for, and that they are using anything else but what it is we produce to them, I have never had a job in manual labor and that is what Avitus Inv. does for people in their own power, they are not able to adjust that we are not able to actually use what it is they in their power they have for themselves that we are for them in Residence. That we then have no power for them to conceal that they are a man that goes by the name Joe, we are not father to anyone that they know is alive, and that we know for that nature that we are not a father at all, by the use of my own courts to adjourn to the Justice Department and several other departments, and that some may confer to the use of the courts to mention me as myself to them and claim that another is using my voice, there is no voice in me that I may use it that is mine, they all sound white and that you may know that that is against the rules in my court in the United Nations, as I work with mostly and mainly African, Indians and the Japanese, I do not confide in their use of my person as something that may manhandle that I have appropriation in their use of their word as my enemy and I do not condemn my persons at the UN for their person in me that they may use me or my persons in their use of what it is we are in power, they are not the use of it in the use of their power for us to something in them that they are in the use of us as in their person that they are

the use of the mailing system that they may for it pay us, that they cannot we do not use them to pay ourselves, we simply magnate and allow that they are not using what we know is in our person as what it is we do magnate that we are available to all funding that is not mafia, and that my court approve of what it is was heard, and that it was heard by others it was it just in my person to deny that they did not hear it for me to hear it to myself, they are not using that the courts are not in power for it, we all use it and I am not astounded to think and believe that you use it as well, there is no use of the courts for them that they are not able to use it to modify to us as the court what it is in person they are not able to use us for in the use of courts to deny to them that we are not "in power" to them. We are not students playing at the UN, or to model it, we are using that we know what it is we are in power for, for the use of persons in the modes of the law, there is no magnate in us that there is the use of citizens in this for it to modify to us that we are what it seeks in us to modify that we may use that and other laws to modify what it seeks to us in our persons, as that we are known in other places by the names we play video games in, there is no way to actually modify what we do to these persons that they cannot modify what it is we do with our persons as the use of what it is we do for each other, as the persons that due their own they are not available to the laws of man, that we are not religious is due yet again, there is no way to modify that their person is due in insolence what it is we cater to as for the court fees, but that that may be reign in for the Supreme Court, the FBI will take fees and we will not modify for the use of that white man voice, and we will not astound you to think that we would charge that much to anyone that isn't in valuable rendering some use of other persons that we are not in sufficient use to them, only rich people sir this man is not rich, there is no way effectively modify that this is a court for it and you may keep 200,000 DOLLARS american for it that there is a use for it that there may be court fees for it, that that is rare I'm sorry that I may excuse that we are in the UN and we deal in money that is large for the use of other countries in their entirety, there is no use for this court to cut costs in the use of other courts and that we are being so rude as to modify that we are in video gaming, we are not we simply own a lot of the companies and we modify no need of any person that we are in theirs for the use of this, we are not, there is no use of the persons that we are by any and more natures that we are in limited essence a person of power, that we are by that nature also revealed to you then perhaps we were mistaken a bit, we are not using a full point to blossom that that may be what is taken by this, there is no change to it, and that we may be in what it is they power for themselves that they provoke themselves, they are not in use the persons for their own that they are in power as we may astound you to ourselves that we do believe they did receive the letter, as we received no note back from the SEC and or the BBB, and that then there was a person that read it there is always someone reading something in either of those buildings and it is plenty clear that the FBI read it, there is no other way to modify that this place is not in issue. It is that my render was in effective use that I may have been in manual labor, I do not contend for that and never will, there is no use for us in immigration that I can't do that work out of medical practice, there is the use of it in us that we may also be using what it is we know we are in power for, there is a use of us in medical practice and that will be sufficient, there is no other in us

three deficiencies in it that we were aware of them not having the enough amount in the funding for it, and that then they decided to simply change their mind that I am wrong for it, there is no person in us to alter that they are wrong and that is sufficient to us that they are not going to alter it in their own that upon payment they will reduce to us that they are moving in their own power the use of money that is not theirs, they will not alter the courts to approve that it is magnate that it may not approve of mafia courts, and that that is enough we will agree and I love that we do, there is no other way to know that then there is a person in that they were to double it on each account and I sufficiently arrived at SIXTY MILLION DOLLARS for the triple on its account the person is this on theirs their fourth and I will only allow myself to double it yet again on account that the courts provide themselves the 2% retainer fee for it or in the use of the court costs they find themselves sufficiently used in their person to reside that we are not using the courts for this cost, we are using persons in it and that we may for it also allow ourselves the use of judgement as the person for it and that then there is no use of other people that they are in it the use of courts, we will not allow the Logos to bother and wretchedly deny that there are alters as in the warfare tools that the CIA has propagated for the use of this an alienation of their own courts, we do not confide in yours that we are in yours for the use of it, that is for the use of alienating principles away from the use of their terms in war, as in the old days for this new branch in changing from persons of color back into the old ways of their own, that they are not in use of it they are not in use of color and we are animated to it but not quite to the extent that there is an animation of the vernacular in their own the persons of hollywood. Just simply aware of it is what we mean. That then there is for it what it is we seek in this, the amount is a null that they transfer into accounts and we will claim that second as this again be that they are in their first attempt yet again, we will convey that they do not reverse their action to us and that we will pay ourselves we will not, there is no use in it that we can't just contact the police on this matter and have them resolve for us against them, that then we may remove it and pass the information properly using the same magnate they used to send that I signal myself the use of my person into the IRS registers that I am in the use of persons that they are not in rearing of, I do not have a thing to say to the IRS currently, there is no other way to state that it should be by now the use of another double, that that would be 120 MILLION dollars America into the use of the common laws in our State to declare that we are in use of the courts of it and that I pay fees I apply them to you in the cost of my courts as deficient then to you, we cannot modify that to dictate that I am right or wrong or the United Nations officers will kill me and that will not suffice to me that I am 'winning' at anything, there is no other person in us that we may modify this for the use of persons that they are in their own the use of what it is there are persons for the use of what it is that they do enable the use of mafia in their use of that person before mentioned and perhaps even in the use of persons with my name in my own family to claim that they are correct in it to use my name and that that should be "worth something", there is no other in it for us that we may for it register that we are in keeping with what it is our person may do for courts, and that that be what it is we are to it that we are in the use of it correctly and that that is what it is we do for it that we have not

against us making us seem deficient and unable to collect a check, we do not accept mafia money at the Justice Department and we have made sure that the president himself donate his check to make certain that there are and that there were no amounts in his due made out to anyone that he has or will collect from that we are not in use of his courts to make sure or certain, he has none, that he has he is able to make due for. There is no person in it that we can collect for him and we will not. That is all for this and thank you for reading. I await your reply and thank you again for using the Justice Department for anything committed to your health, person and or in writing new points for efficacy. We are aware of ourselves too and that is great to us that we may now be able to reach so many more Americans than I as myself were only prior to myself as the use of the youth. Thank you yet again.

And for the referendum that we are not in occupancy a favorite person of the courts for this fine ammendment that we are in its person to procure a person of practice that in it we are not allowed to continue into what it is we do, we will not astound to declare that we are in it for the use of it, that we are not in practice currently and that that will suffice this is excellent, there is the use of courts to astound and allow that the UCLA settlement we were in distribution of, that their person claim anything but otherwise there is a third installment in it that they may, but that the fourth it is we are in consolation only using the courts as render for that one, there is a person in it that they may for it they are to be allowed to conduct themselves into it that they can, and that they do they are not in it for themselves that they are not alive, we believe that they aren't, there is no use in it that we are in person what they seek in us, that they framed us in the use of schizophrenia to the use of persons that they do believe themselves in the use of capital in the use of this fraud that was prior mentioned, there is no person in it for us that we are not in it as aware as they are, and that they are they are not in the use of us that they are in their own known to us that they can, and that they cannot they will not that they use their own source of money for it that we can also modify to you as the LA Superior Court and not this time the use of the City Hall for it is an academy of sufficient use and that will not be enough for the capital in it to modify that we are in its person also using that we can modify what we in it are the courts that they claim they use for it, they are in criminal modification and we are in satisfaction, there is no person in it for us that by the second there was no declaration and that no modification took place, but that by the use of the proper courts we have in our person there is a use of them in us that they did model to it that they had proper action, just no payment, and there was no reduction in it to us that they may reduce to us what it is they reduce to person is their proper, I am the owner of the campus as for the courts that they use them in their own and that they for it they are now known to be using what it is we call and use as common law, they cannot own that and that they cannot own that they cannot own us as the courts and they will not own us as the courts, and that for that there is person in us that they modify what it is in them they are in the use of courts, they are not to make that they modify for us the use of "more", that there is no more there is nothing in it that we will modify that in ours there is a court that we can for it ever allow that we are in person what it is they seek for themselves in the

that they are for us in the use of courts if not for the use of it in the elitism that takes place and practice in the use of their "courts", and that they suckle into it they are removed to the fifth of its assault and that that may assault their person for removal of it, there is no use in them that we by them we will ever be able to astound them that the use of persons in us that we are not in the use of them that they are only for us the use of persons that they may as they do that they modify it for us, there is no us in them, they are not to use that they are in court for us, they are not and that they are not in the use of it for us, that they cannot, they will not own us as they may own another person in it for us, and that they can own they will continue to state it so that they are in clinical fashion their own person and that they do for it as their own they do astound themselves, they will not for us use the courts that way and that they can they will not from now on and it will be seen so as between us. There is no use in it for them to know any further but what they owe and that they for "Malpractice" as in the use of the hospital and in the use of their own alienated practice known as BHC Alhambra, they assaulted us and electrocuted us (lightly), misfed us a tooth, switched the application in their syringes with fats from persons we do not know and then also altered that they blindly mistrust anyone that is in their person, they mistook me for a fight and made me out to be the bad guy to persons that did not know me but knew fights and jails and trite reasoning, they also enable the use of personnel in arms against me as the use of terrorist activity, they enable the use of the senate against me in the use of television and that is the use of distraught persons not having their own capability to breathe and also forced that I take a medication I am not rivaling myself to take that they are available to it that they can what it is in them they believe that they are capably wearing themselves on me as what it is they do condone the use of risperidone, which was recalled by the company they harbor a responsibility to, they are not capably their own and they do remove that to themselves that they can, and that they do they will as for it what it is we do into them that we can, there is no person in them for us and that we can we will not speak to them, there is no issue in this for us to them and that they cannot, they will not that they use the courts for it as any other use that they are what in them they may be, that they can then they are not using their persons for it and that they will they are not to be opened any longer for their persons are in passion, but that that is government facility the amount will suffice, there is person in them for the suit that it is in the persons of it for the use of no courts and that they were simply handed suit to for the use of their malpractice registry, they will not cost court to us as the United Nations, we do not reside in it for them, they are not using the courts to us for us that they are not in us for it to be used by us, and that they hit to us another person in them, they are now using that they simply misapplied another electric shock to our knees, they are not aware of themselves and all that have hit us for it they will be executed by the use of the Justice Department and the Secret Service Agents in its power to remove them from power, they are not in it that they can, and that they do they must not remand themselves any kind of Justice. That this is power the amount is a fine of THREE HUNDRED MILLION AMERICAN DOLLARS for the use of the ill will in their courts that they do respire into us the use of their drugs and other happenings in their ill for us, that they do contend it is their glory to pay such fines,

will not so any real majority, they are not in person what it is we do ourselves for it to account that there is person in us for it to account to their person that the person in us is a Judge and that the Justice in us is the Chief of the Justice Department, there is nothing in us that will deny that they did not know, but that amount of mistreatment is capable any person to deny them nothing in the Justice courts as for by us that there is anything in them that they are known to it that they can confide in themselves that they do deny themselves the Justice in the use of it by being so malicious and devilish in their definition of "care". We do not conform to them and we will for it be the use of them that they do deny themselves the use of real courts, and that by that use of ill will they are denying us anything in the use of their courts, we will seem them shut down, or we will not contemplate aiding those that revive themselves in the use of their domicile. There is no person in it for us that we cannot contend to them what it is we in our courts do confide to them that we are in seeking their persons to them that they are in astute manner their own person, and that that is what it is then it will the manner to each and every one of them that they believe they are so evil and willing to confederate a use of terror on a judge in that manner and that be what it is they in them they will that they are capable of pursuing what it is in person we are for them in the use of real courts that we will magnate all use of their persons to allow ourselves the use of them as the use of them in their courts. They are not ill, they are simply evil persons. We will not abide it. The simply and fair act of it is that we will double it as before but we will not the ill will of the nefarious person in them, and that that is sufficient, there is an amount in us that we have concluded to them is fair in their use of us as their person that they do condone the acts of terror through the use of their person in the use of their school as faction, as where I got the email to the UCLA hospital that sent me to the Alhambra BHC address, there is no person in us to state that they did not receive it, it is local to their own office and that they are in person their action, they will for it that they do not remove it on account that perhaps an email may have slipped through one, that is not my ill will nor my fault, and I will charge them for that too, my ribs will not heal while waiting for you to clear your names and I will not make myself aware of you as you wish to make me more ill than I am by claiming I do not heal. I heal and I heal well. There is nothing else in it but the amount now, and that amount is the whole and total of the persons in them that they are due what it is they are in amount to, they were 5 in work, two in office, 1 selling and dealing drugs in the place for their work and apparently with the help or knowledge of the benefactors of the place, a philipina lady working the desk office and or an Irish woman working the desk officie, and that then there were more there were others that were working there for the use of the military aid that they would provide themselves in the use of what it is they know they are capable of providing to themselves. The then of it is that I do not know how much they make and I will not charge them for it, I will simply charge UCLA for sending me there and claiming that they will "help me". What then the use of it is that I was not allowed to claim anything that the pain makes me feel like I want to die, as some may claim, I simply said I do not want to die, it hurts back here as I found the wound somewhere in the back my head near the ear, and it was a hole I later found out from a stabbing that was induced to me by their student, which was not efficacy as she may be

Secret Service and the Justice Department in our person searching for them to release them of their misery, they are not useful to us and we hear that they may have murdered the child we were in rearing of, whom is not mine it is her current boyfriends and that they do reside to each other that they are in love and that they modify life for each other into one another and that that is resident into their facebook life I may have taken a look to make sure the boy was okay once or twice, or many times if it suffices to say that I had pictures of my own of him on my page but that I removed them when I believe they disappeared, I am not capably aware that there is anything else that needs to be mentioned, and that I am a Chief Justice is only appearance here, they are not capably in my will and they will not hold my power present in their own manner, they are not to me anything that they know they are in power to me now, that that is why they choose to call me a name here or there, they may be in power in a social school setting, but I am a private person and there is no here for it, there is no other way to say that I am only looking to argue that UCLA knew where it was going with that whole situation, it seemed every other UCLA student knew that that was going to end up in a problem, I don't rehearse my book I am a render of it, there is no statement in this that I cannot confide is Justice to me that the boy's name and class and all province of him be kept secret to him that he is in this book and that I and him be not related to this book and or the pages of the Los Angeles books of its keeping, there is no need to make the boy anymore negative of his mother's keeping, there is only the choice in it that we may keep for him as it that they are in their own as hers and his, they are not what we seek in eachother that we can for them in their own keep to us that we are in keeping for it, there is no person in it for us and we will not remove him or it for it. That then there is person in it for us, we will remove that we are in the ready for and that there is an amount, the amount from removal was to be 4 BILLION, but that then that amount seems to break the chain of what it is we arrived at prior in this reading, the book says that I should short the amount to 4 times the original amount and that breaks that 300 MILLION times FOUR is now the whole of 1.2 BILLION American Dollars and that that amount is for contention what we seek in it for ourselves that we may prodigy a sum of its amount, there is judgement for it and we allow that there may be a retainer of it to a flat use of it in the use of 20 MILLION for the use of the 1.2 BILLION, and that there is action otherwise they may astute that they are in person now the property of another and we will not that we own them, I do not like asians as persons when they do arrive that they come with settlement a person in them, that they then receive themselves in suicide is more common than I thought, there is no person in it for us that they can astound me anymore and that that is what we do in prejudice a practice of our own, that there is practice for ourselves in settlement, there is the use of courts to allow that their persons are what we settle to and that that account is what we broker is the person in their settlement they are not using the courts correctly and they will react in "precedence", and that will be all that we astute to you that they know. The amounts are here and in sum they should be held separate, and that in action they are not, that is fine as well, we do not read for you what it is they do but that they do what it is they do not, we choose that 20 MILLION be your book, we do not take court costs seriously as the FBI will take from it that it is yours and move to it that they are the Justice Department, they are

for the White House but that they execute nothing to me they are not mine to use in power and in tool and that was what the referendum on Twitter was a person for in it that we ourselves were not heard into it, just the Justice Department, we will not help them into it as us either and they will be removed for it that they touch any of my money, there is no other person for it that they will be heard into and for it and they will not receive this as their person. There is nothing else and there is nothing more, not for more recent persons as their own that they are in theirs when we receive it. That then we do arrive in person, we do hope to see you as person that we are limited to it in our power. The CC will contain no instructions, just a limited time person in the revealing of what it is we do for our own in the use of power, and that in it we are what we hold, we are your Judge and we will hold ourselves to that in most and almost all confidential agreements that they are not in our person something disgusting. And that it is ever for Irish we may not be in contention for it as the United Nations in its President. Nor for Italy, China or the New York Branches of things to do with Wall Street. That would be ill mannered. Thank you for reading and I do hope for your reply soon. It is late currently. Thank you.

Lenin Marty Chavez

Chief Justice of the United States of America

President of the United Nations

Owner of Microsoft, Macintosh, Apple, Sony and Enron.

That there is anything more in the use of what it is we have in company for this as the use of what it is you are now simply aware of something you did not know prior, there is an availability of person in the use of this as courts and then that there is what it is we know there will be in us person for the use of something to update software or things like that, we cannot until we take chair properly, there is only promise until then and we will astound you to create a friendship in it that it will be to aid and donate to the uses of state classes and not for the use of anything nefarious with any secret tidings or names. All will be revealed. Thank you.
