The following is a general public comment for all the public agencies included in this email:

We are writing in response to the City of Bakersfield's posting of addresses of victims of domestic violence, sexual assault, human trafficking, our district attorney, public defender, and numerous others with protected addresses.

For months we have been reaching out to Bakersfield City Attorney Ginny Genaro notifying her that the addresses of victims, judges, district attorneys, and public defenders (current and former) were posted on the city's website. For months, she has refused to remove these addresses, working with internet service providers to remove indexed information, and to notify impacted individuals.

Ms. Gennaro repeatedly told us "it is not illegal to post the addresses of victims, judges, or other individuals if we don't intend to cause harm ... it's a matter of public record." In reviewing records, we were able to identify not only Kern County personnel but personnel from numerous other jurisdictions across the state that for various reasons own property in Bakersfield and Kern County.

When we alerted Ms. Gennaro to this issue, she then proceeded to tell us that the city would not remove these addresses and would not notify impacted individuals.

No one deserves to have their safety at risk. Unfortunately, the City of Bakersfield is placing the safety of numerous people up and down the state at risk. We oppose Bakersfield's attitude of letting

something bad happen and sue us later. We have the ability to protect people's lives before they are hurt. Isn't this the right thing to do?

https://www.bakersfield.com/news/kern-county-limits-bakersfields-access-to-assessor-recorder-claiming-city-improperly-posted-documents-online/article_c5a8e5ee-c885-11ea-bca2-43ab9cc967b7.html

Mr. Clegg, Ms. Gennaro, Mayor Goh, - you should be ashamed. It is time you resign so our community, survivors of violent crime, and officers of our courts can live in peace and safety.

Judy Woo et. al

Please ban ban trick or treating in Los Angeles forever and don't have any public events for Halloween in Los Angeles again. Halloween offends many of us who don't celebrate it. I signed a petition asking that you agree to this request (currently at 5401 signatures). You can't offend people in this day and age. Halloween is a terrible holiday which causes mental issues for kids later in life. Many neighbors are sick of trick or treating.

Halloween causes deep depression for many of us. Why don't you care about us? Why do you care more about people who celebrate Halloween than people who don't celebrate it. I am sick and tired of this. Most countries in the world don't celebrate Halloween. Many Muslims are offended by Halloween, YOU CAN'T OFFEND PEOPLE IN OUR DAY AND AGE. If ya'll knew the pain me and others feel when we see Halloween each year you'd agree to this request in a second. It's that bad. PLEASSEEEEEEEEEEEEEEE

If you don't agree to this request, i will remind your office of the info below every week for the rest of my life (via email):

There are many alternate realities where Halloween was NEVER celebrated by anyone in alternate California ever past present or future (in those alternate realities you'd see no trace of Halloween anywhere in alternate reality California ever past present or future). There are other alternate realities where Halloween is as non big in alternate reality California as the Holi Festival is non big in Spain in our current reality. The Many Worlds Interpretation is proof i am right (research it) MANY WORLDS INTERPRETATION.
