To: "Clerk.CPS@lacity.org" <Clerk.CPS@lacity.org>

I visited LA recently, having not been there since 2019.

What on earth are your leaders doing to that poor place? I've traveled many places around the world (in poverty ridden countries), never in my wildest dreams would I fathom what happened to LA (let alone CA).

Its a really sad sad state of affairs. From the homeless, to the drug use to the public defecating that we witnessed twice. Its worse than I've seen from many places around the globe. Poverty is 1 thing, but your city is worse.

I am formerly from Detroit - I've been witness to how Government can ruin a place. Its a top down thinking philosophy and all the people below are at fault! No city should ever reach this scale.

NOT a place I will be back anytime in the future.

Thank you,

Jim
