Subject: Please Stop the partying in my neighborhood

To: cityclerk@lacity.org <cityclerk@lacity.org>

The house at

[17704 Arvida Drive](#)

Granada Hills, CA 91344

has been having parties every single weekend for several months. They have progressively gotten bigger and are now including illegal fireworks. Besides the risk of spreading COVID-19, there is now the risk of them setting my neighborhood on fire. I have called the police, and have been told that they will not respond. Why do you even bother to make laws if you have no intention of enforcing them? Please send someone to this house to tell the people there to stop having these ILLEGAL gatherings and to stop using ILLEGAL fireworks.

Heat Wave!

Hello Honorable Clerk of Los Angeles County,

Our beautiful city has too much light pollution. Can you please suggest to anyone whom may listen and act to cut half if not all street lights?

If all of the street lights could be turned off perhaps we would not need rolling black outs.

I'm not afraid of the dark!

We tax payers of L.A.county pay Edison our hard earned money for a service that probably creates poor sleep health in our communities affecting our children and general adults work productivity.

Also the harm to our environment including insects, birds and nocturnal mammals is unmeasurable.

Can you help? Help to move this message forward in hopes of positive change for a better future!

Thank you for your time and consideration.

Terry Moore
