Please ban Trick or Treating in LA forever , ban all public Halloween decorations in LA forever, and ban public Halloween events in LA forever

If i don't see this happening then in a few years from now I will personally force LA to ban trick or treating by me blocking off streets and I will force LA to permanently cancel all public Halloween events forever and ever (starting in 2022) I will also remove any public Halloween decorations i see throughout the LA area starting in 2022. Halloween is offensive and it ruins my life, it takes away any joy or happiness i feel. I refuse to get out of bed each year because of Halloween and St ptricks day.

There are atternate realities where noone in the US or Canada ever celebrated Halloween ever, in those sweet alternate realities, you won't see any trace of Halloween in the US/Canada in October each year or ever, past present or future. i am going to force every California resident to think about those alternate realities (starting in a few years) i will force them to always think about them no matter what i have to do
