Request investigation for chinese postpartum centers.

Below is chinese law. Please see item 5, **new born baby in US from postpartum center are Chinese**. Reason: new born baby although is born in US, both mother and father are Chinese with visiting visa in US.

Below are how these new born baby would happen immediately after born in US according to postpartum center advice mother: the new born US baby stay in postpartum centers for 30 day just after born(it is Chinese culture to stay indoor normally obeyed strictly by mother), then leave US to china with Chinese travel document. In china, these babies are Chinese.

Because both baby mother and father are Chinese, the baby stay in china all the time with parents.

美国非中介形式的国际母婴护理公司

https://www.chineseinla.com/f/page_viewtopic/t_1299270.html

This is a statement from shanghai postpartum centers 上海天使宝贝国际母婴. It listed:

It provides caregivers training, and caregivers are this company employees.

300 caregivers have visiting visa can work in US

Caregivers are its company employees taking care of new born baby and handle new mother some medical problems, eg milk duct block and cooking.

Some pregnant women bring caregivers from this company to US to born baby

The reason why postpartum centers: having a US baby for Chinese through postpartum center is an easy, cheap, quick way for Chinese family: today pregnant woman born a US baby through postpartum centers, 21 years later when US baby is 21 years old, Chinese family related to this US baby can move to US. Total cost for whole Chinese family move to US is 25K or so paying to postpartum centers.

Below are hospitals in LA

https://www.chineseinla.com/f/page_viewtopic/t_1764525.html

Below are possible ways to find postpartum centers:

Pregnant women are from china, normally alone without husband when visit hospital. Pay hospital doctor fee in cash, so fee is much low than local resident. If mailing address is same as physical address, if 1 address in 3 months have 2 more mothers, mostly it is postpartum centers.

If pregnant women already have an old kids with her when come to US, this old kid mostly will attend kindergarden, daycare or school, so the information is registered in kids school.

Some pregnant mothers will join learning English class. Below are examples

https://www.chineseinla.com/f/page_viewtopic/t_1752886.html

https://www.chineseinla.com/f/page_viewtopic/t_1747133.html

There are lots of postpartum centers in **pheasantridge apartment**(80%), <http://www.rentpheasantridge.com/> this is a review, said 80% are for pregnant women and owners mostly not registered.

https://www.chinadaily.com.cn/qiye/2015-12/17/content_22735710.htm

Normally pregnant women stay in postpartum center for 3-4 months, 2-3 months before birth, 1 month after birth. It is Chinese culture that mother after birth with 30 days should get very special care, eg in door, staying in bed and eat special food. 坐月子實際上是一種特別的對產婦的行為和照顧方式 (this is the reason must stay 1 month after birth). In this month, caregiver takes care of new born baby, because mother need special care. In postpartum centers, normally use caregiver 月嫂 to take care of new born baby. But 月嫂 doesnt have license to do the job, and environment for baby might not meet requirement.

<https://baike.baidu.com/item/%E5%9D%90%E6%9C%88%E5%AD%90/87714>

Below listed related to postpartum center business chain

- Postpartum centers
- IVF
- Company with Meal Service Service (provide special meal for mother after birth within 30 days, normally with special nutrition)

- Job agent(providing caregiver, paid in cash+tips, work for postpartum center or individually just have baby within 30 days)
- Recover center after birth
- Real Estate
- Others: ID, visa

Below are lists of Chinese postpartum centers. List company name and other know information.Each company has multiple postpartum centers, eg 50+, in different houses, apartments or hotel. These postpartum centers main point is to help Chinese pregnant women having baby here (birth tourism) anchor baby. Normally stay here 3-4 months(2-3 months before and 1 month after having baby). Normally provide following service

- Visa,when how to enter border
- Taxi related service for pregnant women like shopping and hospital.
- Living and meal for pregnant women.
- Take care of baby for at least 30 day just after born.

Below are 2 articles review Chinese postpartum centers.

<http://www.calgarychinese.com/china8863/cgi-bin/view.cgi?forum=29&topic=5657>

I request investigations for chinese postpartum center for following issue:

Lots of service related to baby care is illegal, which means almost all postpartum centers taking care of baby is illegal.

1. The person taking care of new born baby(0-30 days old) may not have licence to do it.

Each pregnant women has a contract with postpartum center. How to take care of new born baby(0-30 days) is specified clearly in contract as it affect price directly. How to take care of new born baby also is listed clearly in its website and advertisement. If 1 baby is found illegally taking care of in one postpartum center, all babies in this company is illegally taking care of. Because the problem is caused by company management style.

Normally Chinese postpartum centers using 月嫂(MOM & BABY AFTER BIRTH CAREGIVER) to take care of new born baby. This is definition of 月嫂

<https://baike.baidu.com/item/%E6%AF%8D%E5%A9%B4%E6%8A%A4%E7%90%86%E5%B8%88/5877811?fromtitle=%E6%9C%88%E5%AB%82&fromid=2443>

Problem: 月嫂 doesnt have nurse or other licence to take care of new born baby in business as postpartum center is a business.

2. The environment to taking care of new born baby in business might not meet requirement.

Normally to take care of new born baby(0-30 day)in business has requirement in environment. The environment postpartum center provide could not meet requirement.

3. The insurance doesn't cover mal practice to take care of new born baby.

The insurance postpartum center hold should include 月嫂 mal-practice when taking care of baby. But postpartum center could not get this insurance as not qualified. No insurance put baby in risk.

4. If in hotel, whether it is allowed to taking care of new born baby.

Some postpartum centers are in hotel. Postpartum center taking care of new born baby at least 30 days. This is a problem: hotel is a business, whether it is allowed to have a new born(0-30 days old)baby taking care of(like a business nursing center).

All above problems put new born baby in risk if not solve.

Below are problems related to service postpartum centers provide to pregnant women. All services are listed clearly in postpartum centers

1. Company might not registered.
2. Postpartum center provide living place for pregnant women. This should allowed by city.
3. Postpartum center provide meal to pregnant women daily. So meal should pass food safety inspection.
4. Postpartum center provide taxi service to pregnant women shopping, and to hospital. So it need taxi or travel licence.

Below is insurance related issue:

Postpartum center provide living, taxi service to pregnant women. So its car should have business related insurance to drive pregnant women and new born baby. House also need related insurance.

Below are issues if pregnant women stay in hotel:

1. Normally pregnant women should stay in hotel for 3-4 months. Whether hotel is allowed to long term rental. Also it is related to rental transfer problem: hotel is rented to postpartum center, postpartum center transferred to pregnant women.
2. Meal cooking problem in hotel daily.
3. Long term baby care problem in hotel: whether hotel is allowed to have a new born baby nursing for business for at least 30 days. Whether hotel environment is allowed for baby care.

Below are list of Chinese companies, each company has multiple postpartum centers in different cities.

Below are job agencies located in China(mainly Shanghai.)All candidates eg caregivers already have visiting visa, hiring decision is made through phone screen among company, employer and caregivers with a contract, employer pay salary+20%-30% service fee to company. If pregnant women need caregiver(like inside postpartum centers), normally time frame is 30 days. If long term needs eg baby sister, company would send 1 person each 6 months.

找保姆找保姆,月嫂,育婴师,管家,司机到 198526 家政(provide caregiver, baby sister, driver etc. This website is in china, and all companies, caregivers etc are china based. The post is in US)

Chinese postpartum centers request investigation (Chinese headquarter companies)

Please use following to translate Chinese website

<http://itools.com/tool/google-translate-web-page-translator>

Please use following to translate Chinese.

<https://translate.google.com/>

Request investigation for chinese postpartum centers.

Below are lists of Chinese postpartum centers. List company name and other know information. Each company has multiple postpartum centers, eg 50+, in different houses, apartments or hotel. These postpartum centers main point is to help Chinese pregnant women having baby here (birth tourism) anchor baby. Normally stay here 3-4 months(2-3 months before and 1 month after having baby). Normally provide following service

- Visa, when how to enter border
- Taxi related service for pregnant women like shopping and hospital.
- Living and meal for pregnant women.
- Take care of baby for at least 30 day just after born.

Below are 2 articles review Chinese postpartum centers.

<https://www.zhihu.com/question/41826473>

<http://www.calgarychinese.com/china8863/cgi-bin/view.cgi?forum=29&topic=5657>

I request investigations for chinese postpartum center for following issue:

Lots of service related to baby care is illegal, which means almost all postpartum centers taking care of baby is illegal.

1. The person taking care of new born baby(0-30 days old) may not have licence to do it.

Each pregnant women has a contract with postpartum center. How to take care of new born baby(0-30 days) is specified clearly in contract as it affect price directly. How to take care of new born baby also is listed clearly in its website and advertisement. If 1 baby is found illegally taking care of in one postpartum center, all babies in this company is illegally taking care of. Because the problem is caused by company management style.

Normally Chinese postpartum centers using 月嫂(MOM & BABY AFTER BIRTH CAREGIVER) to take care of new born baby. This is definition of 月嫂

<https://baike.baidu.com/item/%E6%AF%8D%E5%A9%B4%E6%8A%A4%E7%90%86%E5%B8%88/5877811?fromtitle=%E6%9C%88%E5%AB%82&fromid=2443>

Problem: 月嫂 doesn't have nurse or other licence to take care of new born baby in business as postpartum center is a business.

2. The environment to taking care of new born baby in business might not meet requirement.

Normally to take care of new born baby(0-30 day)in business has requirement in environment. The environment postpartum center provide could not meet requirement.

3. The insurance doesn't cover mal practice to take care of new born baby.

The insurance postpartum center hold should include 月嫂 mal-practice when taking care of baby. But postpartum center could not get this insurance as not qualified. No insurance put baby in risk.

4. If in hotel, whether it is allowed to taking care of new born baby.

Some postpartum centers are in hotel. Postpartum center taking care of new born baby at least 30 days. This is a problem: hotel is a business, whether it is allowed to have a new born(0-30 days old)baby taking care of(like a business nursing center).

All above problems put new born baby in risk if not solve.

Below are problems related to service postpartum centers provide to pregnant women. All services are listed clearly in postpartum centers

1. Company might not registered.
2. Postpartum center provide living place for pregnant women. This should allowed by city.
3. Postpartum center provide meal to pregnant women daily. So meal should pass food safety inspection.
4. Postpartum center provide taxi service to pregnant women shopping, and to hospital. So it need taxi or travel licence.

Below is insurance related issue:

Postpartum center provide living, taxi service to pregnant women. So its car should have business related insurance to drive pregnant women and new born baby. House also need related insurance.

Below are issues if pregnant women stay in hotel:

1. Normally pregnant women should stay in hotel for 3-4 months. Whether hotel is allowed to long term rental. Also it is related to rental transfer problem: hotel is rented to postpartum center, postpartum center transferred to pregnant women.
2. Meal cooking problem in hotel daily.
3. Long term baby care problem in hotel: whether hotel is allowed to have a new born baby nursing for business for at least 30 days. Whether hotel environment is allowed for baby care.

Below is updated information

Below is chinese law. Please see item 5, **new born baby in US from postpartum center are Chinese**. Reason: new born baby although is born in US, both mother and father are Chinese with visiting visa in US.

Below are how these new born baby would happen immediately after born in US according to postpartum center advice mother: the new born US baby stay in postpartum centers for 30 day just after born(it is Chinese culture to stay indoor normally obeyed strictly by mother), then leave US to china with Chinese travel document. In china, these babies are Chinese.

Because both baby mother and father are Chinese, the baby stay in china all the time with parents.
