See the article below regarding BCHD's Measure BC failure. It was the only failed bond in the Beach Cities. BCHD's bond supported allcove for 30 years for all of LA County SPA8 (funds to augment \$6.3M in BHCIP) and BCHD's plan to demolish the former Hospital and prepare the campus for private development for 80% to 95% non-resident use.

### Redondo Beach election results: all city measures passing, except BCHD bond

Early election returns indicate the city of Redondo Beach will be getting a new police station and two new fire stations after voters approved Measure FP by a 71% margin Nov. 5.

A major school facilities bond also passed and voters turned back a Beach Cities Health District bond, which would have torn down the former South Bay Hospital, and funded other work at its Redondo Beach campus.

Also Tuesday, Measure RB was approved – to amend the city charter to strengthen local land use decision-making – and Measure SD, to remove the ban on compensation for school board members, who were paid \$250 per month for expenses before the city charter language against it was brought to light last year.

Measure FP's margin exceeded the required two-thirds threshold. The bond provides \$93 million to fund the new stations, replacing buildings from the late 1950s.

Measure S, the \$278 million school facilities bond, passed with 66% support.

"I'm very, very, very happy for the students of Redondo Beach, and super-grateful to the community for their continued support," said Raymur Flinn, Redondo Unified School District board president. "Now the hard work begins, deciding which projects go first, and forming a citizen's bond oversight committee."

Measure BC, for the Beach Cities Health District, failed by a 53% to 47% margin.

Measure SD passed with 57% support.

Early returns showed voter turnout for the measures ranged from 49% to 53% of Redondo's 48,935 registered voters.

"These numbers are all preliminary, as of right now," said City Clerk Eleanor Manzano Wednesday morning. "All of the ballots dropped off in the boxes have not been counted."

Measure SD's approval follows a series of discussions by the school board on the matter. The board voted to end its pay last year and subsequently put this bond before voters.

"If the city charter is amended, it's settled. The citizens have spoken," Flinn said.

"I think we can stop talking about this and move on. The main issue, I believe, was bigger than the payment, it was so a board can receive health benefits," she said, referring to a question of whether the charter language prevented that.

"(Now) they can receive what any school board member can receive in the state of California."

The board will have to decide whether or not to reinstate the payments.

Measure BC would have funded the demolition of the former South Bay Hospital, helped fund the construction of allcove, a youth health facility, as well as build open space and a parking lot on the BCHD campus. ER

StopBCHD.com ([StopBCHD@gmail.com](mailto:StopBCHD@gmail.com)) is a Neighborhood Quality-of-Life Community concerned about the quality-of-life, health, and economic damages that BCHDs 110-foot above the street, 800,000 sqft commercial development will inflict for the next 50-100 years. Our neighborhoods have been burdened since 1960 by the failed South Bay Hospital project and have not received the benefit of the voter-approved acute care public hospital since 1984. Yet we still suffer 100% of the damages and we will suffer 100% of the damages of BCHDs proposal.
