AD HOC ON RECOVERING ENERGY, NATURAL RESOURCES & ECONOMIC BENEFIT FROM WASTE FOR L. A. COMMITTEE REPORT relative to resource management blueprint for the City of Los Angeles for the next twenty years.

Recommendation for Council action as substantially recommended by Motion (Smith - Perry) and as amended:

ADOPT Recovering Energy, Natural Resources and Economic Benefit from Waste for L.A. (RENEW LA) plan as a guide for solid waste and resource management for the City of Los Angeles for the next twenty years, on the condition that its legislative package of motions still proceed through the various Council policy committees.

Fiscal Impact Statement: Neither the Chief Legislative Analyst nor the City Administrative Officer has completed a financial analysis of this report.

(Budget and Finance and Energy and the Environment Committees' reports to be submitted in Council. If public hearing is not held in either Committee, an opportunity for public comments will be provided.)

Summary:

On February 7, 2006, at a special meeting, the Ad Hoc Renew LA Committee considered Motion (Smith - Perry). The Committee amended the motion with a list of goals for RENEW LA which can be found on the Council File.

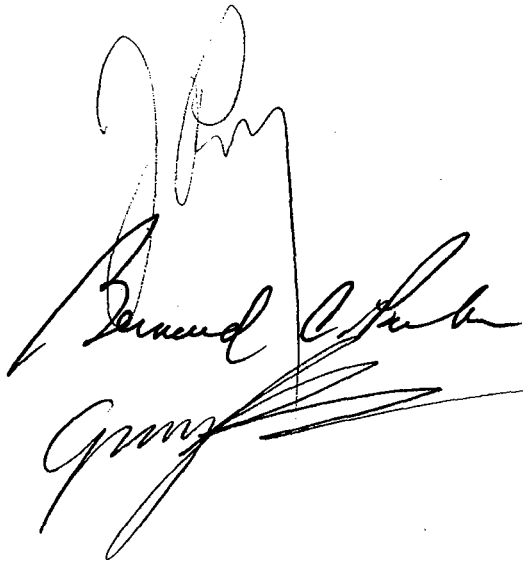

The Motion states that the current City of Los Angeles three-barrel system of refuse collection has allowed the City to receive a 62% diversion level and that the City's goal by 2010 is 70% landfill diversion.

The RENEW LA plan provides a blueprint for a City not dependent on landfills for disposal, but also strives to create renewable, green energy, alternative fuels and incentives for local recycling and re-manufacturing industries.

The Committee approved the Motion and amendment. This matter is now being forwarded to the Council for its consideration.

Respectfully submitted,

AD HOC ON RECOVERING ENERGY, NATURAL RESOURCES & ECONOMIC BENEFIT FROM
WASTE FOR L. A. COMMITTEE

ENERGY AND THE ENVIRONMENT COMMITTEE REPORT relative to a proposed resource management blueprint for the City of Los Angeles for the next twenty years (RENEW LA Plan).

Recommendation for Council action as substantially recommended by Motion (Smith - Perry):

CONCUR with the recommendation of the Budget and Finance Committee and the Ad Hoc Committee on Recovering Energy, Natural Resources and Economic Benefit from Waste for L.A.

Fiscal Impact Statement: Neither the Chief Legislative Analyst nor the City Administrative Officer has completed a financial analysis of this report.

SUMMARY

On February 7, 2006, at a special meeting, the Ad Hoc Committee on Recovering Energy, Natural Resources and Economic Benefit from Waste for L.A. considered Motion (Smith - Perry). The Committee amended the motion with a list of goals for RENEW LA Plan which can be found on the Council File.

The subject Motion states that the current City of Los Angeles three-barrel system of refuse collection has allowed the City to receive a 62% diversion level and that the City's goal by 2010 is 70% landfill diversion. The RENEW LA Plan provides a blueprint for a City not dependent on landfills for disposal, but also strives to create renewable, green energy, alternative fuels and incentives for local recycling and re-manufacturing industries. The Ad Hoc Committee approved the Motion and amendment.

At its regular meeting held February 13, 2006, the Budget and Finance Committee discussed this matter with City staff and concurred with the recommendation of the Ad Hoc Committee on Recovering Energy, Natural Resources and Economic Benefit from Waste for L.A.. At a regular meeting held on February 15, 2006, the Energy and the Environment concurred with the Budget and Finance and the Ad Hoc Committees. This matter is now forwarded to the Council for its consideration.

Respectfully submitted,
