These channels will continue to be available at their existing service levels on both the current and new 800 channel range numbers as well.

There are no planned price increases associated with these service changes.

Programming Correction

Time Warner made a channel service level correction on May 21, 2008, to KBS America (KBS) on Channel 159 available in most Council Districts of the City. KBS was mistakenly made available on the Standard Cable service level, when it was intended to be available only in the Digital Choice Tier. This error has now been corrected and KBS is available only in the Digital Choice Tier as indicated in the channel line-up and is no longer available on the Standard Cable service level.

Federal law preempts the regulating of the tiering practices of cable companies. Cable companies are permitted to add and move channels from tier to tier or to delete channels from a tier, after 30 days notice is provided to its subscribers.

Rate Increases

Effective August 1, 2008, the following one time rates will be increased in former Franchise Areas B, D, I, J, K, and M. Time Warner's "Trip Charge" will increase from \$16.99 to \$19.95 and the Additional Outlet Fee (at time of installation) will also increase from \$13.99 to \$14.95. These rates are one-time charges that will not affect current regular monthly charges. These rate increases impact subscribers residing in Council District 1 (Reyes); Council District 2 (Greuel); Council District 4 (LaBonge); Council District 5 (Weiss); Council District 6 (Cardenas); Council District 7 (Alarcón); Council District 8 (Parks); Council District 9 (Perry); Council District 10 (Wesson); Council District 11 (Rosendahl); Council District 13 (Garcetti); and Council District 15 (Hahn).

The City's former rate regulation authority has been preempted by state law. Time Warner Cable now operates its cable TV systems pursuant to state franchising law overseen by the California Public Utilities Commission (PUC). Pursuant to state law, the PUC is precluded from regulating rates of the basic service tier pricing charged by cable/video TV providers. Federal law preempts the state from regulating the upper tier rates charged by cable/video TV companies.

Subscribers have been notified of these channel and pricing changes via a bill message as well as a mailer sent at least 30 days prior to the price change taking effect. (See attachments.)

Background

The Los Angeles City Council directed ITA to notify all City Council members, the Mayor, the City Controller, and the City Attorney of any proposed cable television service and/or rate changes to be implemented by the City's cable television operators.

Fiscal Impact

Possible minimal impact from the increased installation fees or if subscribers wish to upgrade their services.

RE: One-time charge changes in former Comcast areas

Dear Ms. Levin:

I am writing in our ongoing efforts to keep you apprised of developments affecting the cable television system serving your community.

Beginning August 1, 2008 the one-time installation rates for Trip Charge and Additional Outlet at Time of Installation in former Comcast areas will be changed to \$14.95 and \$19.95, respectively, making them consistent with Time Warner Cable rates. These rates are one-time, going-forward charges that will not affect our current customers. Nevertheless, current customers are being notified via a bill message in their June statements. That message will read:

Effective August 1, 2008, Additional outlet fees (at installation) and Trip charges (following installation) will change. The Trip Charge will change from \$16.99 to \$19.95 and the Additional outlet (at installation) fee will change from \$13.99 to \$14.95.

If you have any questions or other cable related concerns, please don't hesitate to contact me on (310) 647-6551.
