

Re: KEEP Westwood Traffic Mitigation Measures

Dear City Leaders,

Please do **NOT** remove the traffic mitigation measures in the Westwood neighborhood.

I am a resident of the Westwood Neighborhood and am writing to ask your urgent attention to halting the removal of the traffic mitigation Plan measures in our neighborhood. 72% of the affected area residents voted *in favor* of the Plan. The City's own data shows that the neighborhood as a whole benefited from the measures by reducing cut-through traffic by 14.5% and by as much as 124% on one of our streets. The rates of speed on our residential streets was reduced at least 10% and by as much as 26%. There are many small children in the neighborhood whose safety is at peril if the traffic mitigation measures are removed.

We are counting on you to hear our voices and to act in support of our safety and residential quality of life. Please halt the removal of the traffic mitigation measures.

Respectfully submitted,

Ruth Cohnen
