BLOCK BY BLOCK - BUILDING A BETTER COMMUNITY

Eric Garcetti, Council President
and
City Council PLUM Committee

RE: CAMERFORD LOFTS/5663 West Melrose Avenue

The Melrose Neighborhood Association supports the Melrose Hill Neighborhood Association's positions on the above proposed development. This project's super density and zoning averaging precedents would significant impact our adjacent community.

Again, we are before the City Council PLUM Committee without the vital information and collaboration with the Council Office and developer necessary to adequately access and address community concerns regarding this project.

We join in the ongoing requests for an open meeting with Council President Garcetti and the developer which thus far have not been set to address community issues and concerns. To be productive, full sized to-scale set of plans must also be presented to this community in a timely manner to fully assess the designs before any meeting.

Thank you.

Lucille Saunders for
Arturo Martinez, President
Melrose Neighborhood Association
