WATER CONSERVATION REBATES

Residential

High-Efficiency Clothes Washer
Up to \$500

Premium High-Efficiency Toilet
Up to \$250/unit

Turf Replacement

\$3/square foot

Weather-Based Irrigation Controller
Up to \$200/unit

Rotating Sprinkler Nozzles
Up to \$6/nozzle

Rain Barrel

Up to \$50/unit (max 2)

Cistern
Up to \$500 (max 1)

Water-Efficient Faucet Aerators & Showerheads
FREE

Commercial

Premium High-Efficiency Tank Toilet or Flushometer Valve/Bowl Combo Toilet
\$300

Zero and Ultra Low Water Urinal
\$500

Turf Replacement
\$3/square foot

Weather-Based Irrigation Controller or Central Computer Irrigation Controller
\$50/station

Rotating Sprinkler Nozzles (30 minimum)
\$6/nozzle

Large Rotary Sprinkler Nozzle Retrofit
\$13/head

Cooling Tower Conductivity Controller
\$625

Cooling Tower pH/conductivity Controller
\$3,000

New Water Restrictions Effective June 1

Limit Outdoor Watering to 2 Days a Week

During this historic drought we all need to do more to save water. We just can't waste another drop.

Beginning June 1, the City of Los Angeles will limit outdoor watering to two days a week. Street addresses ending with an odd number can water Mondays and Fridays and those ending with an even number can water Thursdays and Sundays. Outing back to twice a week can save hundreds of thousands of gallons.

Other restrictions include:

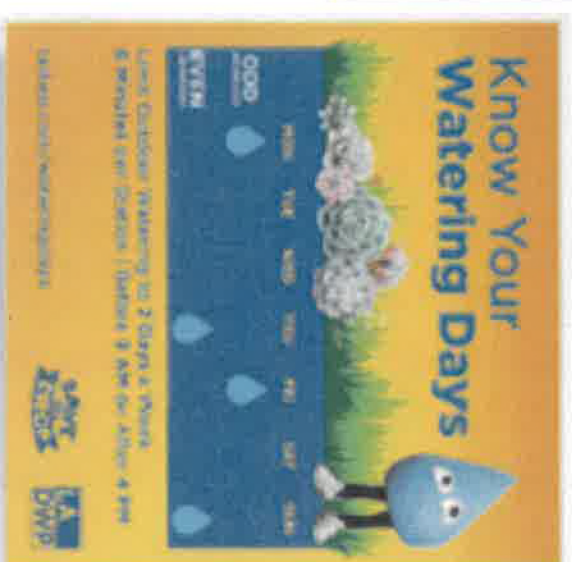

- Watering with sprinklers limited to 8 minutes per station
- Watering with sprinklers using water conserving nozzles limited to 15 minutes per station
- No watering allowed between 8:00 AM to 4:00 PM
- Strongly recommend use of pot covers to decrease evaporation
- Strongly recommend watering of vehicles at commercial car wash facilities (most have water recycling system in place)
- No water runoff onto streets, sidewalks and gutters

To help reduce water use, we offer rebates for water-efficient toilets, watering mistheads, irrigation controllers, and more. You can also qualify for a water replacement rebate and replace your lawn with a sustainable, low water-use landscape.

If we all do our part, we hope we will be even more ready to meet the water challenges ahead.

We've got this, L.A.

Ordinance Enforcement

- Patrols performed by **Water Conservation Response Unit**
- Respond to customer complaints and issue warnings/citations
- Focus on educating customers vs. writing tickets
- Vast majority respond after education/warning
